

Business Profile

Al Imtiaz carried out several research projects and studies to survey the needs of economic sectors in the State of Kuwait and the GCC countries for various investment services. As a result, the Company is engaged in different business activities that accord with the market requirements and its professional expertise.

Al Imtiaz business operations are targeted at the financial and banking sectors, in addition to investment, industrial, real estate, and service based sectors. It also facilitates related opportunities inside the GCC markets, which the Company considers as one market, sharing various aspects of similarity, interdependence, and symmetry. This in turn enables the Company to replicate its successful experiences among such markets without neglecting foreign markets in neighbouring Arab and Islamic countries which are being targeted in the medium term, in addition to other countries.

Al Imtiaz's most significant operations include:

1. Investment:

- Direct and indirect investments.
- Assets management and private ownership.
- Ownership of companies, real estate, industrial and service projects.
- Arranging acquisitions and mergers of various companies and institutions

2. Consulting and Company Restructuring Services:

- Establishing banks, financial institutions and specialized companies.
- Managing public and private subscriptions and issues.
- Financial consultations for corporate, institutions and individuals.
- Administrative and regulatory restructuring, and financial engineering to companies, institutions and banks.
- Financial and economic research, studies and consultations.

3. Asset Management and Financial Brokerage:

- Establishing and managing diverse financial and investment portfolios and funds.
- Arranging joint financing for companies and enterprises in all economic sectors.
- Carrying out securitization and issuance of Islamic sukuk.
- Mobilization of Financial Resource, and arranging private and joint financing for companies and projects.
