These interim condensed financial statements have been prepared under historical cost convention, except for certain available-for-sale investments which are measured at fair value and are presented in Saudi Riyals, which is also the functional currency of the Company, and the presentation currency for these interim condensed financial statements.

The Saudi Arabian insurance regulations require separate accounts to be maintained for insurance operations and shareholders' activities. Also, as per the insurance implementing regulations, the shareholders of the Company are to receive 90% of the annual surplus from the insurance operations and the policyholders are to receive 10% or this percentage to be deducted from their next period's premiums. If the insurance operations result in a deficit, the entire deficit is borne by the shareholders' operations.

### 2.2 Accounting policies

The accounting policies used in the preparation of these interim condensed financial statements are consistent with those used in the preparation of the annual audited financial statements as at and for the year ended December 31, 2015, except for the adoption of certain amendments and revisions to existing standards as mentioned below, which had no significant financial impact on the interim condensed financial statements of the Company. These interim condensed financial statements should therefore be read in conjunction with the audited financial statements for the year ended December 31, 2015. The results of the interim period are not indicative of the results of the full statutory financial year.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 2.2 Accounting policies (Continued)

The adoption of the above standards did not have any impact on the accounting policies, financial position or performance of the Company.

The Company's management decided not to choose the early adoption of the following new and amended standards and interpretations issued which will become effective for the period commencing on or after January 1, 2016:

<u>Standard</u> <u>Description</u>

IFRS 9 Financial instruments

IFRS 15 Revenue from contracts with customers

IFRS 16 Leas

Amendments to IFRS 9 Financial instruments regarding general hedge accounting

Amendments to IAS 27 Equity method in separate financial statements

#### 2.3 Use of estimates in preparation of financial statements

The preparation of interim condensed financial statements in conformity with IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim condensed financial statements and the reported amounts of revenues and expenses during the interim reporting period. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Changes in assumptions may have a significant financial impact on the interim condensed financial statements in the period the assumptions changed. Management believes that the underlying assumptions are appropriate and the Company's financial statements present fairly, in all material respects, the financial position and results of operations.

	30 June 2016	30 June 2015
	(Un-audited)	(Re-stated)
Issued ordinary shares as at 1 January Effect of right share issue	20,000,000 20,000,000	20,000,000 8,088,398

### NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS FOR THE THREE MONTHS AND SIX MONTHS PERIOD ENDED 30 JUNE 2016

#### 12. FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price). The Company's financial assets consist of cash and cash equivalents, other financial assets and other assets and its financial liabilities consist of payable, accrued and other liabilities.

The fair values of recognized financial instruments are not significantly different from the carrying values included in the interim condensed financial statements

#### Determination of fair value and fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted prices in active markets for the same instrument (i.e., without modification or repacking)

Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation technique for which any significant input is not based on observable market data.

The table below presents the financial assets which are carried at fair values as at 30 June 2016 and 31 December 2015 based on their value hierarchy:

#### As at 30 June 2016 (Un-audited)

Financial instruments	Level 1 SR	Level 2 SR	Level 3 SR	Total SR
Investments available-for-sale	-	-		
Equity securities	79,993,054	-	1,923,078	81,916,132
Total	79,993,054	-	1,923,078	81,916,132
As at 31 December 2015 (Audited)	Level 1	Level 2	Level 3	Total
Financial instruments	SR	SR	SR	SR
Available-for-sale investments				
Equity securities	82,802,608	-	1,923,078	84,725,686
Total	82,802,608	_	1,923,078	84,725,686

For financial instruments that are recognized at fair value on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

During the six months period ended 30 June 2016, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements.
