WE DESIGN PRODUCTS THAT ENRICH THE QUALITY OF CONSUMERS' LIVES. OUR CORPORATE PHILOSOPHY IS TO THINK BEYOND CONVENTIONS, EMBRACE REFRESHING IDEAS AND SET NEW TRENDS FOR THE INDUSTRY. OUR OPERATIONS ARE LEAN AND AGILE, OUR TECHNOLOGIES AHEAD OF THE CURVE AND OUR STRATEGIES CUSTOMER-CENTRIC.

**ABOUT HSIL LIMITED (HSIL)**

The Company was incorporated in 1960 as Hindusthan Twyford's Limited, with a technological collaboration with Twyford's, UK, to introduce vitreous china sanitaryware in India. The Company was subsequently renamed Hindustan Sanitaryware & Industries Limited in 1969 and HSIL Limited in 2009. We became the first sanitaryware company to be featured in the 2014 'Fortune India 500' list and continue to be a part of the list in 2017. Currently, HSIL has four distinct business segments, namely the Building Products Division (BPD), Consumer Products Division (CPD), Retail Division and Packaging Products Division (PPD).

Over the decades, our flagship brand 'Hindware' has emerged as a leading Indian sanitaryware and faucet brand driven by consistent innovation. In FY 2015-16, we decided to expand our business into the synergic domain of plastic pipes and fittings under the brand name 'TRUFLO by hindware' in agreement with ~USD 10 billion Japanese conglomerate Sekisui Chemical Co. Ltd, enabling us to provide end-to-end bathroom solutions to our customers.

Leveraging the Company's brand equity and vast distribution network,

we diversified into the Consumer Products space by introducing kitchen appliances under the brand 'hindware Kitchen Ensemble'. We expanded our product portfolio by launching water heaters, in collaboration with Euro 1.6 billion Groupe Atlantic of France, the global leader in heating solutions. With both these categories performing exceptionally well, we forayed into purification products under the brand 'Moonbow by hindware' to offer air and water purifiers and launched air coolers under the brand 'hindware Snowcrest'.

We further expanded our offerings to include home furniture, soft furnishings, home decor and accessories, wall fashion, modular kitchens and modular wardrobes by launching a chain of large retail format stores under the brand 'EVOK'.

In 1981, we entered the Packaging Products business by acquiring 'The Associated Glass Industries Limited' (AGI), manufacturer of container glass. With our acquisition of Garden Polymers Private Limited (GPPL) in 2011, we added PET bottles to our portfolio. We recognised a market for counterfeit-resistant caps and closures in developing economies like India and ventured into this business. We set up a state-of-the-art facility in Telangana,

**THE GOVERNMENT OF INDIA HAS ALSO UNDERTAKEN A SERIES OF REFORMS TO CATALYSE THE FORMALISATION AND DIGITISATION OF THE ECONOMY.**

India is home to a predominantly young and aspirational population, whose affinity for brands is growing day by day. Two-thirds of the nation's ~1.3 billion people are below 35 years of age with growing disposable income. To offer you a perspective, that is more than twice the US population.

The Government of India has also undertaken a series of reforms to catalyse the formalisation and digitisation of the economy. From managing fiscal consolidation, rolling out the country's biggest indirect tax reform – the Goods and Services Tax (GST), improving the 'ease of doing business' to introducing the Real Estate (Regulation and Development) Act, the Government of India is energising the economy and ushering in transparency across sectors.

In this environment, our values of innovation, creativity, excellence and customer-centricity are really coming into their own. At HSIL, we are reimagining our businesses to serve a new India with new energy and endeavours and to unlock exceptional value for all our stakeholders. We have made encouraging progress in aligning the diverse aspects of the operational ecosystem, including systems and processes, to increase capabilities and grow steadily.

We have come a long way by developing innovative bathroom solutions for customers and now, over the past few years, are investing

Dear Shareholders,

**OUR COUNTRY IS POWERING AHEAD AS ONE OF THE WORLD'S FASTEST-GROWING MAJOR ECONOMIES. THIS, IN TURN, IS CREATING OPPORTUNITIES FOR EMPLOYMENT AND ENTREPRENEURSHIP FOR MILLIONS OF PEOPLE.**

to become more agile and aligned to evolving customer requirements. We have ventured into new and synergic businesses to create diverse revenue streams. At the same time, we continue to push the innovation envelope across our businesses. During the year, we introduced new product categories with a palette of offerings that incorporate different styles, functionalities, materials and colours for customised choices. Design is highly personal, we respect and value that element in our craft.

Our robust marketing capabilities, wide distribution network, strong relationship with existing dealers and customers and our wide range of offerings across the price spectrum have enabled us to grow consistently. In a digital-first economy, we are leveraging the reach and recall of e-commerce platforms and are partnering with them to grow our online presence. Moreover, we have further fortified our relationships with customers in the packaging products industry by enhancing our capabilities to provide them with industry-leading and innovative products.

Our overarching strategy has always been to foresee opportunities and build appropriate platforms for sustainable growth, taking into consideration rapidly shifting macro realities. During the year, the Board of Directors approved the scheme of arrangement that envisages the demerger of Marketing and Distribution Undertaking of the Consumer Products Division and Retail Division to a separate entity, Somany Home Innovation Limited (SHIL), and the demerger of Marketing and Distribution Undertaking of the Building Products Division to a separate entity, Brilloca Limited, a subsidiary of SHIL.

During the year, the Company launched an innovative product range of pipes and fittings under the brand 'TRUFLO by hindware' and initiated trial production from the state-of-the-art plant in Telangana, enabling us to further broaden our offerings for the Building Products Division. The Company also commissioned Phase I of the security caps and closures plant

in Telangana, strengthening the Packaging Product Division. We take immense pride in announcing that our pipes plant is first in the industry to be awarded Platinum rating by Indian Green Building Council (IGBC). Our security caps and closure plant has also been rated Platinum by IGBC. We are excited about the better value and opportunities our two new businesses will offer our customers and stakeholders. We also made key investments in growth drivers for the future and achieved yet another year of consistent shareholder returns.

We, at HSIL, are inspired by the strides we have taken as a company in sustainability and stewardship. We are steadfast in our sense of responsibility when it comes to the environment, the communities we operate in and our people. We have a passionate approach in our commitment to our communities. During the year, the Company supported various social issues such as sanitation and hygiene, skill development, healthcare, education and women empowerment, directly and in association with our partner organisations. We further instituted our CSR arm, HSIL Corporate Social Responsibility Foundation, to increase the impact and reach of our programmes. Business success for us goes hand in hand with what we can do to better our communities and the nation.

I foresee our teams performing and translating our core purpose into strategies that will help enrich the quality of life and enhance stakeholder value. We are continuously investing in training and empowerment to nurture the potential of our people so as to imbibe a passionate, go-getter attitude. I would like to thank the entire HSIL family for their hard work and dedication. Going forward, our priorities are to drive revenue growth with profitability, create innovative products and grow our brand reputation and recall.

The future will continue to present both opportunities and challenges. Our strategy will be to focus on the broad operational canvas to elevate performance and accelerate

the pace of innovation to sustain our leadership. This predominant business approach will continue to lead our inspiring legacy of sustainable growth despite economic volatilities, shifting consumer aspirations and industry dynamics.

Our commitment is to continue building our businesses with strategic clarity and value-assertive investments in our differentiated capabilities. I am grateful to all our stakeholders for their trust, engagement and support.

# Blueprint for Growth and Accelerated Value Creation

Dear Shareholders,

In a dynamic global landscape, a business cannot be mired in status quo. It constantly needs to reshape its roadmap to stay relevant and create value for all. The macro context is more interesting and I believe, we are entering a new growth era in India, an era that will demand more from businesses in terms of smarter products, faster delivery mechanisms and better ways of customer engagement.

Our performance, during the year, continued to prove the strength and resilience of our business model. This resilience is nurtured by decades-rich experience and expertise and above all, our foresight and fortitude to back up drawing-board strategies with hard-hitting action on the ground.

During FY 2017-18, we registered 9% growth in revenue from operations of ₹2,250 crore compared to ₹2,072 crore last year, despite the rub-off of economic headwinds such as demonetisation and destocking owing to GST implementation. Hon'ble Supreme Court's restrictions in FY 2016-17 on the sale of alcohol near state and national highways affected the glass container business during the first half of the financial year. Overall, during the year, we made key investments in strategic growth drivers for the future and accomplished another year of good shareholder return.

**WE ARE IMPLEMENTING A BUSINESS MODEL THAT COMBINES HIGH PERFORMANCE, CONSISTENT INNOVATION AND VALUE CREATION WITH RESPONSIBILITY TOWARDS ALL STAKEHOLDERS.**

**DURING FY 2017-18, WE REGISTERED 9% GROWTH IN REVENUE FROM OPERATIONS OF ₹2,250 CRORE COMPARED TO ₹2,072 CRORE LAST YEAR, DESPITE THE RUB-OFF OF ECONOMIC HEADWINDS SUCH AS DEMONETISATION AND DESTOCKING OWING TO GST IMPLEMENTATION.**

**IN LINE WITH OUR OBJECTIVE, WE FOCUSED ON STRENGTHENING QUEO, OUR LUXURY BRAND, AND INTRODUCED ALCHYMI, A SUPER-PREMIUM BRAND CURATED BY MANISH MALHOTRA.**

## SCALING OUR BUILDING PRODUCTS DIVISION

Our Building Products Division's revenue grew 6% from ₹973 crore in FY 2016-17 to ₹1,029 crore in FY 2017-18. Our faucet business has grown consistently over the years to be among the top three players in India. We are investing in the future through capacity streamlining, brand segmentation and product range expansion to enable us to cater to a wider cross-section of customers. Hindware, through constant innovation and reinvention, continues to grow ahead of the market. The brand is further strengthening its presence with

new business initiatives to make an impact and delight consumers with aesthetically distinctive and functionally advanced offerings. In line with our objective, we focused on strengthening QUEO, our luxury brand, and introduced ALCHYMI, a super-premium brand curated by Manish Malhotra.

We also redefined our brand identity with a new promise 'Start with the Expert' based on the findings of the study we undertook with consumers, architects and multiple leading market agencies. Today, we offer our consumers expert advice and handhold them through their journey of creating their dream bathrooms. We also launched the 'Start with the Expert' 360-degree integrated marketing campaign with our brand ambassador, Bollywood Baadshah Shah Rukh Khan, to communicate this philosophy.

As a market leader in the sanitaryware industry, it is our endeavour to meet the aspirations of people across economic strata wanting to own aesthetically branded products in their homes. We consistently invest in developing brands to meet consumer requirements. Our wide spectrum of products ensures that consumers have a wide array of options to choose from within the HSIL brand family and this is supported by our extensive 22,000 retail touchpoints across the country. We are also leaders in water conservation and have been working closely with the Government to lower the standard of water used for flushing in India.

Our new plastic pipe and fittings business will enable us to offer a cohesive integrated portfolio to our consumers. The state-of-the-art plant located in Telangana has already started trial production. We aspire to capture 10% market share of the plastic pipes business in the building and construction industry over the next five to seven years, currently pegged at approximately ₹8,500 crore. We are confident of achieving our goals, as we are working towards expanding our pipes business by leveraging our current brand strengths and our sales and distribution network.

### **GROWING OUR CONSUMER PRODUCTS DIVISION**

India has a growing youth population and is emerging as a country of young achievers with high disposable income. Our objective is to develop products

**OUR NEW PIPE AND FITTINGS BUSINESS WILL ENABLE US TO OFFER A COHESIVE INTEGRATED PORTFOLIO TO OUR CONSUMERS. THE STATE-OF-THE-ART PLANT LOCATED IN TELANGANA HAS ALREADY STARTED TRIAL PRODUCTION.**

that reflect the aspirations of young India in the products and solutions that we continue to innovate and introduce in the market. Our Consumer Products Division's revenue surged by 65% to ₹208 crore in FY 2017-18 from ₹126 crore in FY 2016-17. We have expanded our offering in Consumer Products Business by adding more than 62 products across categories.

We reinforced our position as one of the top three players in the kitchen chimney segment in India. At the same time, we continued to strengthen our position in the kitchen appliances, water heater, air cooler and air and water purifier segments. A key highlight is the acceptability of our high-quality Hindware branded products by consumers in their kitchen and other areas of their homes.

We adopted a dual-marketing approach - the conventional organised retail channel in which we have gained 8,500 retail touchpoints and have a visible presence across 350 large format stores. This is complemented by our presence across leading e-commerce portals to ensure we reach our consumers across all online and offline formats.

As always, we will keep innovating to launch technologically advanced and efficient products that help us drive competitive advantage

and lead the charge of the market. HSIL's strong inhouse Research and Development (R&D) team dedication has helped us file three patents for our business and this has helped in elevating industry benchmarks and staying well ahead of the competition.

### **STRENGTHENING OUR PACKAGING PRODUCTS DIVISION**

Our Packaging Products Division's revenue increased by 5% from ₹877 crore in FY 2016-17 to ₹920 crore in FY 2017-18. We undertook several debottlenecking and efficiency-enhancing initiatives to optimise our operations and launched a plethora of designs and products. With the Hon'ble Supreme Court easing the ban on vending of liquor on highways and an increased demand from end-consumers, the market is looking promising and has led to the restarting of Furnace III, with 300 TPD glass capacity, at our Hyderabad glass plant.

Our world-class quality standards and varied range of packaging products enable us to effectively address the requirements of our customers across different industries, while developing and maintaining our relationships with institutional customers.

The demand for PET products was impacted owing to uncertainty on PET packaging across several Indian states. Hence, going forward, we will utilise the capacity in manufacturing plastic products such as seat covers and cisterns, among others, for the sanitaryware division, thereby leveraging group synergies.

During FY 2017-18, we commenced the manufacturing of security caps and closures at our new state-of-the-art plant at Telangana. Currently, we cater to alcoholic beverage companies in India and will start exporting to Africa, Latin America, Europe and South East Asia. This is a niche value-added business, which we believe will flourish rapidly.

#### LEAP FORWARD

We continue to invest in enhancing operational efficiencies, optimising operating costs and using advanced technology. We are integrating higher levels of digitisation and automation to strengthen our manufacturing processes. We are ready for an exciting future and have identified our priorities:

- Unleash stakeholders' value and enhance capabilities through demerger and create focused companies to accomplish the next growth trajectory
- Further strengthen systems, R&D, new products line-up and infrastructure to support our long-term growth
- Increase the production capacities of the newly commissioned manufacturing plants of pipes and fittings, caps and closures
- Scale and widen our distribution and retail network
- Continue to offer a diverse product portfolio, reinforce the position and further enhance the acceptability of the brands 'TRUFLO by hindware', 'Hindware Snowcrest', 'Hindware Atlantic' and 'Moonbow by Hindware'

**WE REINFORCED OUR POSITION AS ONE OF THE TOP THREE PLAYERS IN THE KITCHEN CHIMNEY SEGMENT IN INDIA. AT THE SAME TIME, WE CONTINUED TO STRENGTHEN OUR POSITION IN THE KITCHEN APPLIANCES, WATER HEATER, AIR COOLER AND AIR AND WATER PURIFIER SEGMENTS.**

**OUR WORLD-CLASS QUALITY STANDARDS AND VARIED RANGE OF PACKAGING PRODUCTS ENABLE US TO EFFECTIVELY ADDRESS THE REQUIREMENTS OF OUR CUSTOMERS ACROSS DIFFERENT INDUSTRIES, WHILE DEVELOPING AND MAINTAINING OUR RELATIONSHIPS WITH INSTITUTIONAL CUSTOMERS.**

Despite market challenges, we continued to make strategic inroads in developing our businesses. We improved our business information systems, armed our sales team with technologically advanced tools and undertook multiple relevant initiatives to support growth. We have created a blueprint for the next level of growth, which will support accelerated value creation.

I count on your continued support as we move forward on our exciting journey together.

Warm regards,

**Sandip Somany**  
Vice Chairman and Managing Director

We strive to make HSIL a place where talented and capable people are inspired, motivated and fully engaged in achieving organisational goals.

We continue to equip our team with the right technology, tools and training to tackle dynamic challenges.

## Strategic Demerger

# Strategy to Unleash Potential

DURING FY 2017-18, THE BOARD APPROVED A SCHEME OF ARRANGEMENT FOR DEMERGER OF THE COMPANY'S BUSINESSES. THE OBJECTIVE OF THE DEMERGER IS TO UNLOCK VALUE BY CREATING DISTINCT ENTITIES FOR THREE OF ITS BUSINESS UNDERTAKINGS, THEREBY ENSURING SHARPER FOCUS AND BETTER ALIGNMENT TO ITS CUSTOMERS.

### The scheme provides for the demerger from HSIL of:

- a. The Marketing and Distribution business of Consumer Products Division and Retail Division into a separate entity, Somany Home Innovation Limited (SHIL), and
  - b. The Marketing and Distribution business of Building Products Division into a separate entity, Brilloca Limited (Brilloca),
- each as a going concern.

Post demerger, SHIL will issue one equity share each of SHIL for one equity share held by the shareholders of HSIL. Thereby, shareholding of SHIL will mirror the shareholding of HSIL as on record date. SHIL shares would be listed on stock exchanges and the Appointed Date of the Scheme is April 1, 2018. Brilloca will continue to be a subsidiary of SHIL immediately post demerger.

### Post approval of the demerger scheme, HSIL will comprise businesses other than those demerged into SHIL and Brilloca and will mainly retain:

- a. Manufacturing of building products such as sanitaryware, faucets, pipes and fittings, etc.
- b. Manufacturing of certain specified consumer products such as SKD facility of water heaters etc., and
- c. Manufacturing and supply of packaging products such as glass containers, PET and security caps and closures

### The rationale of the demerger scheme is as follows:

- a. Demerged undertakings have distinct capital requirements, nature of risk, competition, human skillset requirements, etc.
- b. Dedicated and specialised management focus on the specific needs of the respective businesses
- c. Enable respective businesses to improve competitiveness, operational efficiencies and strengthen their position in the relevant market places
- d. Benefit to all stakeholders, leading to growth and value creation in the long run and maximising the value and return to the shareholders, unlocking the intrinsic value of assets, achieving cost and operational efficiencies.

The Company would be filing documents with National Company Law Tribunal (NCLT) as approval from stock exchanges i.e. NSE and BSE has been received. The demerger process is subject to approval from regulatory authorities including National Company Law Tribunal (NCLT)

New Capacities

# AGILE FOOTSTEPS

TO LEVERAGE OPPORTUNITIES

## SECURITY CAPS AND CLOSURES

During FY 2017-18, we forayed into the business of security caps and closures under the brand name 'AGI Clozures'. Our technologically advanced manufacturing facility is located in Medak, Telangana, and is certified with a Platinum rating by the Indian Green Building Council (IGBC).

Our quality assurance laboratory has the best-in-class equipment to

meet global standards. The closures are certified for overall migration limits in accordance with IS-9845. The manufacturing systems are certified with ISO 9001:20015, ISO 22000:2005 and global standards of Good Manufacturing Practices (GMP) and hygiene for packaging food products. Our globally patented products are equipped with tamper evident systems to safeguard consumer products, high-value foods, pharmaceuticals and beverages against

counterfeiting to ensure customers get genuine products.

The first phase of commercial production commenced in the last quarter of FY 2017-18 with annual capacity, as on March 31, 2018, at 275 million pieces. Based on encouraging response from clients, we are expanding the capacity to reach 1 billion pieces per annum by March 2019.

WE AIM TO PROGRESSIVELY ENTER BUSINESSES THAT ENJOY SYNERGIES WITH OUR EXISTING OFFERINGS TO CAPITALISE ON OPPORTUNITIES. THE STRATEGY IS TO ENHANCE OUR FUTURE PREPAREDNESS AND INVEST IN NEW PRODUCTS AND TECHNOLOGY TO STAY AHEAD OF THE CURVE.

### PIPES AND FITTINGS

TRUFLO by hindware, our plastic pipes and fittings business that comprises PVC, CPVC, UPVC and SWR pipes, is back of the wall integration into our sanitaryware and faucets business. The current annual production capacity of the plant, under trial production, located at Medak, Telanagana, is 14,000 tonnes per annum and we plan to scale up to 30,000 tonnes by March 2019. We have an agreement

with ~USD 10 billion Japanese conglomerate Sekisui Chemical Co. Ltd. for the supply of NSF-certified Chlorinated Polyvinyl Chloride (CPVC) compound, Durastream to help us make better quality heat-resistant CPVC pipes and fittings.

Our fully automated manufacturing plant is first in the industry to be certified with a Platinum rating by IGBC. Highly sophisticated advanced machines, including online pipe

weighing, an industry-first, are used in all production departments for better productivity and superior quality. We also use Supervisory Control and Data Acquisition (SCADA) for seamless control and operations.

## HINDWARE 'START WITH EXPERT' POSITIONING: BRAND CAMPAIGN

To understand what consumers expect of Hindware, we undertook a study involving 20,000 consumers, 100 architects and commissioned multiple research studies by leading market agencies. Key findings of the study positioned Hindware as the key contender to take the stance of an **Expert Solution Provider in Bathrooms**, owing to the legacy and trust consumers have in the brand which is reflected in our market share in sanitaryware, the largest in the country.

We redefined Hindware's brand identity with a new promise, 'Start with the Expert', and a new azure symbol of expertise, 'HW'.

Hence we decided to take a big leap to solidify consumers' trust and transform ourselves into an expert brand that will handhold the consumers through the decision-making journey in their tryst of creating bathrooms they will keep admiring. Our new symbol of expertise is testimony to our commitment to be the best in the bathroom space.

## EXPERT HELPLINE

The Hindware Expert Contact Centre is an integrated communications system. The Expert helpline (toll-free phone numbers 1800 200 7577 / 1800 103 7577) is functional six days a week, Monday to Saturday, from 9:30 am to 6:30 pm. The helpline provides the assistance customers need to build their dream bathrooms.

## DREAMBATH APP 2.0

The app helps consumer in solving their bathroom needs at the touch of a button without any hassle. Now consumers can visualise the bathroom even before buying the products. The app has features such as Virtual Reality (VR) with a 360-degree watch with VR Gear, Augmented Reality, GPS-enabled dealer locator, VR for iOS and social media integration, among others.

## DREAMBATH VISUALISATION BOOK

A contemporary bathroom is as much about aesthetics and visual delight as it is about functionality. At HSIL, we offer solutions that marry technology with aesthetics to create spaces that are truly alluring. We are showcasing various bathroom themes in the DreamBath Visualisation Book.

## HINDWARE DESIGN STUDIO

Hindware Design Studio is a state-of-the-art design centre where our Research and Development (R&D) team is working on innovative technological advances to create a cutting-edge, intelligent and smart product portfolio.

## EXPERT WEBSITE

Our website hindwarehomes.com showcases our entire suite of products and services and assists the consumers with beautiful bathroom themes, coordinated products and expert content.

## EXPERT STORES

Hindware Lacasa stores are a one-stop destination for homemakers, architects, interior designers and business buyers to envision and explore Hindware's products. The stores bring the brand closer to varied consumers and promise to deliver best-in-class experience.

## IN-STORE EXPERTS

We have trained Hindware in-store experts to advise customers on bathroom solutions and ensure superlative customer experience and satisfaction.

## ASK THE EXPERT

Hindware stepped up investments across diverse platforms to promote its new brand identity 'Ask the expert' to engage consumers across multiple

touchpoints, including digital media, to enhance visibility.

We launched a new TVC campaign with Bollywood Badshah Shah Rukh Khan. The campaign

communicates the brand philosophy of being the 'Expert Companion' in helping consumers make their dream bathrooms a reality.

Launch of Brand ALCHYMI

## Symphony of Minimalism and Magnificence

ALCHYMI was launched in August, 2017 with the objective of upgrading consumers who are satisfied and trust Hindware but seek contemporary, discerning solutions both in aesthetics and design. These consumers are also looking at additional reassurance to justify their decision to play in the space Hindware provides with ALCHYMI, an Indian brand delivering products that match global standards – best in design, technology and materials. For ALCHYMI, we partnered with Manish Malhotra, who uses our FloSense technology and combines it with his discerning style and design knowledge to curate signature ranges of bathrooms that inspire and impress.

ALCHYMI is an exclusive collection of the most elegant and contemporary bath spaces that define not just how you feel, but also how you live.

Great design in bathrooms is not merely about good-looking products; it is about good-looking products that work well together. Just like in nature, well-designed bathrooms have energy in harmony – earth, wind, water and fire – all elements working in tandem. ALCHYMI strives to achieve this harmony through the amalgamation of the finest materials and best-in-class technological processes. We call this FloSense – our design philosophy. We use FloSense to create bathrooms that set the

trend in design. ALCHYMI promises bathrooms that are the pride of their owners and truly reflect their status.

So far, seven bathroom suites have been launched under the ALCHYMI collection – *Black Pearl, Earthen Escape, Poise, Harmony, Minimal Moda, Symphony and Odyssey*. Each bathroom suite has a unique design story, with differentiated offerings combined with pioneering product designs, to create stunning bathrooms.

## Business Segment 1

# Building Products Division

INNOVATION CONTINUED TO BE A KEY FOCUS AREA FOR US IN FY 2017-18 AND GOING FORWARD, WE WILL CONTINUE TO INVEST IN DRIVING INNOVATION ACROSS OUR PRODUCTS, SOLUTIONS AND PROCESSES.

It is our endeavour to drive customer-centricity and customer convenience across all our initiatives and be accessible to them on all platforms.

We are in a strong position to capitalise on the opportunities ahead because we continue to invest in superlative products, service range and customer technology.

The Building Products Division houses our flagship business of sanitaryware, faucets, wellness products and the recently launched plastic pipes and fittings business. Our foray into the pipes and fittings segment has enabled us to become a more comprehensive bathroom solutions provider. We have reinforced our position in the building products industry through multiple brands and a wide product basket, targeted at various (mass, premium and luxury) segments. The sanitaryware, faucets and wellness product brands under this division include Queo, Amore, Hindware Italian, Hindware Art, Hindware, H-Vitreous, Raasi, Benelave and the recently launched ALCHYMI in the super-premium category. We explore new product lines in sync with emerging technologies, customer aspirations and demands.

Our plastic pipes and fittings (CPVC, UPVC, PVC and SWR) business is built on our legacy of innovation. It will help us emerge as a wide-ranging bathroom solutions provider as it is a natural extension of our bathroom product streams – from 'front of the wall' to 'behind the wall'.

We have five manufacturing facilities for this business. Our sanitaryware production units are located at Bahadurgarh, Haryana and Bibinagar, Telangana. The two faucet plants are situated at Kaharani and Bhiwadi (under temporary shutdown) in Rajasthan. We recently started trial run for the plastic pipes and fittings plant at Medak, Telangana.

Customer satisfaction, product innovation and quality control have fostered great levels of trust and respect for the Hindware brand from over millions of customers.

### ROLE OF DIGITAL IN MARKETING

At Hindware, we are aware that we are marketing in a digital world and our approach strongly revolves around assisting and empowering consumers, as they move along the decision journey, using relevant digital assets and content.

Consumers moving from online to offline or vice versa are provided with a seamless product experience at the brand shops and experience centres. Capturing these experiences through a Lead Management System and delivering personalised services reflect our omnichannel approach.

This omnichannel approach presses into service assets and technologies such as the Hindware Dreambath App, website, social media channels, 3D Digi Assist, Augmented Reality, Virtual Reality, 3D bathrooms and bespoke bathrooms designs.

This leads to more direct calls to the Company as well as store walk-ins. Digital media efforts ensure measurable actions against marketing spends by precise targeting and informing back about metrics such as reach, engagement, view, etc. of content assets. These efforts ensure discoverability on search engines as well as social media channels across devices, especially mobile phones.

We actively manage our online reputation by giving timely responses to online user-generated queries. This has resulted in higher customer satisfaction and supports customer service. We have recently launched our own social media command centre to ensure we listen and respond to our consumers in real time.

**Recently launched Pragati CRM solution for institutional clients (builders, architects, construction companies and realty developers) to understand their project status and procurement schedules.**

**Through this solution, we inform clients about product catalogues, product launches and relevant purchase-influencing information.**

## DIGITAL PLATFORMS

### DREAMBATH MOBILE APP

HSIL launched the path-breaking bathroom visualisation app 'Hindware DreamBath', a one-of-its-kind industry initiative to provide comprehensive bathroom solutions virtually. The tool offers customers various coordinated themes built on the emotion of 'my personal space', designed by experts for bathrooms and bathing spaces. The app will help the Company transcend the demarcations of functionality and turn the process of designing a bathroom into a creative experience.

### BESPOKE BATHROOMS

Customers can design their bathrooms from scratch with the help of the Company's designers after briefing them about the shape, size and preferred taste of their desired bathrooms; and the Company can bring it to life with its bespoke software.

### SOCIAL MEDIA COMMAND CENTRE

We have launched our own Social Media Command Centre to listen and respond to our consumers in real time to ensure higher customer satisfaction and support customer service.

### 3D DIGI ASSIST AT LACASA STORES

One-of-its-kind assistive technologies in bathroom selection is intended to help consumers visualise the perfect bathroom right in our stores. They can choose from the Company's myriad themes and products before making a purchase. Consumers can then receive a personalised quote to fit their budget.

## MARQUEE PRODUCTS

### RIMLESS

We have pioneered the 100% rimless one-piece water closet series, making Hindware the only 100% bacteria-free water closet brand recommended by the Indian Medical Academy for Preventive Health (IMAPH). The design ensures there is no unglazed part of the closet and it promotes easy cleaning and better hygiene. Aesthetically rich, the smooth and curvaceous design provides a powerful swirl-like motion flush, cleaning the closet at one go. Other features include a sleek cistern lid and a slow-falling seat cover.

**100% CLEAN.  
100% RIMLESS.**

### TOUCH-FREE FLUSHING

We introduced India's first European Water Closet (EWC) under the brand Hindware Italian Collection range, with an inbuilt sensor for touchless flushing. The EWC senses the hand and activates the flush. This innovative technology is user-friendly, maintenance-free and provides safety against germs due to its no-touch feature.

**AQUA SHEET FLUSHING SYSTEM**

We introduced India's first water closet with a unique aqua sheet flushing system to conserve more water compared to a standard flush which is also capable of cleaning the entire area with minimum flushing noise. Its geometry-inspired design and duraplast slow-falling seat cover embed the bathroom with a sophisticated look.

## PRODUCT LAUNCHES IN FY 2017-18

### INCREASING OUR KITCHEN APPLIANCES RANGE

The Company introduced several products in the kitchen appliances category, including kitchen chimneys, gas stoves and cooktops. During the year, following products were launched:

- Alicia Auto Clean cooker hood – an auto-clean kitchen chimney
- Theo Motion Sensor Chimney
- Diva Plus, a five-burner built-in hob
- Flora Plus, Bravia Plus, Andrea and Laura – a range of four-burner built-in hobs
- Gloria Plus, Elisa Plus and Arena – a range of three-burner built-in hobs

- Lorenzo White Cooktop series, equipped with 8 mm toughened glass for strength and durability

### GROWING OUR WATER HEATER RANGE

HSIL uses Titanium Core Shield and O Pro patented technology that enhances the life and durability of water heaters. Enhanced Ingress Progression IP 24 is used which provides superior safety to Hindware Atlantic Water Heaters. During the financial year, water heaters with superior technology and aesthetic designs, Ondeo EVO, Ondeo Horizontal and Fraiso, were launched.

### FORTIFYING OUR WATER PURIFIER RANGE

HSIL widened its portfolio of water purifiers with entry-level as well as premium products during FY 2017-18:

- Moonbow Alpheus RO + Mineral Water Purifier, an entry-level model in the RO category

- Oceanus 3000, a premium water purifier with a smart interface
- Alpheus UV+UF to expand the existing range of UV water purifiers

### STRENGTHENING OUR AIR COOLER RANGE

During FY 2017-18, we launched the compact and sleek tower and table-top air coolers capable of fitting in any corner of the room. These air coolers have set a new benchmark in the segment with their advanced technology and aesthetics as their colour panels can be changed to match individual style and home décor. They also come equipped with a unique anti-skid top cover to provide additional grip and storage for placing objects on their top and a distinctive ice chamber to quickly reduce room temperature.

## BRAND CAMPAIGNS

### MOONBOW WATER PURIFIERS

Moonbow water purifiers' campaign tagline 'Ab India peeyega achha' focuses on 'good human values' that parents want to inculcate in their children.

The campaign showcases the brand's inherent goodness, where it purifies water, along with adding the goodness of essential minerals to it through Hexa Pure technology.

### HINDWARE SNOWCREST AIR COOLERS

HSIL launched the first TV campaign for Snowcrest Air Coolers,

highlighting the unique proposition of 'Changeable Colour Panels in Dessert Coolers'. The campaign's tagline 'It's cool to be colourful' was based on the insight that in addition to expecting basic functional benefits of a product, consumers expect it to enrich their lifestyle.

## ADVANTAGES

### ASSET-LIGHT MODEL

Our asset-light model allows us to source our products from leading global consumer product makers. This will make our business more profitable with minimum capital expenditure requirements.

### WORLD-CLASS PRODUCTS

Our products are embedded with cutting edge-technology with superior aesthetics appeal.

### STRONG BRAND RECALL

Our products, branded under the flagship 'Hindware', have enjoyed great market acceptability and have enabled us to establish a strong connect with consumers.

### WIDE DISTRIBUTION NETWORK

We enjoy a vast network of 575+ distributors and 8,500+ retail outlets

across India. We also sell our products through e-commerce platforms such as Amazon, Flipkart, Paytm, Snapdeal and Tata CLiQ among others. In addition to this, we have a robust presence across modern retail format stores such as Reliance Digital, Walmart, Spencers, Metro Cash and Carry.

### CUSTOMER-CENTRICITY

Customer-centricity is deeply etched into our value system. This quality is reflected in the after-sales services of our products. We maintain the focus and momentum in building and maintaining customers' trust and loyalty towards our brands on an ongoing basis.

### VISIBILITY

We regularly carry out focused marketing and promotion campaigns to strengthen and grow our consumer products prominence.

### GROWTH STRATEGY

- Increasingly address new target groups, utilising additional market potential and strengthening our market position across India
- Fortify existing product categories, enabling us to expand our customer connect and gain higher market share
- Expand retail presence to achieve higher scale
- Delight customers consistently by offering products with new technologies and smart features, along with best design and value-added features

## Business Segment 4

# Packaging Products Division

WE ARE FOCUSING ON ACHIEVING HIGHER SCALE AND COST EFFICIENCIES ACROSS ALL OUR PLANTS. INNOVATION WILL BE INSTRUMENTAL IN DRIVING SALES ACROSS GLASS CONTAINERS, PET PRODUCTS AND SECURITY CAPS AND CLOSURES. OUR STRATEGIC POSITIONING IN EACH OF THESE PRODUCT CATEGORIES DIFFERENTIATES US FROM THE MARKET.

HSIL is one of the leading glass container manufacturers with a significant market share catering to marquee clients in the packaged beverages, food, beer, liquor, chemical and pharmaceutical sectors. We manufacture glass containers, PET products and security caps and closures. We have two glass container manufacturing facilities at Sanathnagar and Bhongir in Telangana and three PET production units at Selaqui in Uttarakhand, Medak in Telegana and Dharwad in Karnataka. We started the first phase of manufacturing security caps and closures at our world-class manufacturing plant in Medak, Telangana. The rising demand for safety and tamper-proof capping (which prevents counterfeiting), especially from the liquor industry, propelled us to move into this business segment by developing our patented products.

## Human Resources

# Performing. Connecting. Innovating.

OUR PEOPLE ARE COMMITTED TO DELIVER ON THE PRIORITIES OF OUR CUSTOMERS AND OTHER STAKEHOLDERS. WE INVEST IN BUILDING THE CAPABILITIES OF OUR TEAMS TO ELEVATE THEIR PERFORMANCE. WE ALSO REINFORCE A CULTURE OF ROUND-THE-YEAR ENGAGEMENT TO NURTURE AND SHARE STERLING IDEAS FOR INNOVATION AND FOSTER A SENSE OF OWNERSHIP.

**TENETS OF EMPLOYEE-CENTRICITY**

- **Growth guidance**
- **Environment of trust**
- **Collaboration**
- **Mutual respect**
- **Open communication**
- **Continuous learning**

**NURTURING TEAMS THROUGH DEVELOPMENT PROGRAMMES**

Our hiring is based on the current business and geographic requirements, backed by regular productivity assessment. We continue to recruit people from premier institutions in both Tier I and Tier II cities. Post recruitment, the new hires undergo a 60-day training module called Saksham, followed by an on-field sales training. This training equips them with knowledge and know-how to provide the highest level of professional and personalised service that our customers have come to rely on.

We invest in consistent learning and development programmes for our workforce to help our employees, at all levels, to realise their true potential. The training programmes vary from instilling the right organisational and behavioural culture to implementing tailor-made technical training modules.

**DEFINING CAREER ROADMAP**

Our diverse businesses provide us ample opportunities to offer attractive and engaging careers to our people. We encourage cross-functional movement of our employees to catalyse their career development. We have an open-door policy that inspires our people to know about the Company's performance through regularly organised Town Halls with our senior leadership team.

**ENHANCING THE EMPLOYEE EXPERIENCE**

We go the extra mile to care for our people. We work towards providing a healthy work-life balance for our employees and have set up a creche for working mothers in our organisation.

At HSIL, we recognise the contribution of our veteran team members by rewarding their commitment. We encourage our employees to participate in our Corporate Social Responsibility (CSR) initiatives and celebrate festivals to instil a sense of belonging. Other employee benefits include a re-hiring policy for our ex-employees and referral bonus for employees who recommend new hires for the organisation.

**KEY MILESTONES OF FY 2017-18**

- Introduced Leadership Talk, a programme by key influencers and business leaders across the country to share their insights with our team

- Collaborated with KPMG to facilitate development modules at specific assessment centres and create development plans for potential employees across businesses
- Launched the Consumer Business Emerging Leadership Programme (CBELP) to impart training to identified key resources and designed a defined career path for them
- Great Place to Work Institute has recognised us among the Best Workplaces to work in India

**OUTLOOK**

Going forward, we aim to establish a training academy, encompassing employees of all businesses, to facilitate a continuous learning environment for our people.

Corporate Social Responsibility

# Blueprint for Growth and Accelerated Value Creation

OUR CORPORATE CITIZENSHIP EFFORTS ARE AN EXTENSION OF OUR BROAD SUSTAINABILITY AGENDA TO CREATE SHARED VALUE FOR ALL STAKEHOLDERS. WE PRIMARILY FOCUS ON HEALTH, EDUCATION, SANITATION, WOMEN EMPOWERMENT AND RURAL DEVELOPMENT, AS THESE AREAS ARE CRITICAL FOR INCLUSIVE DEVELOPMENT OF A NATION.

**PHILOSOPHY**

The overarching philosophy that guides our corporate responsibility initiatives is 'value for the nation; value for all'. Our objective is to achieve far-reaching impacts and outcomes with prudent Corporate Social Responsibility (CSR) initiatives and need-based allocation of financial and human resources.

We are reshaping not just our businesses, but also the way we care for our communities. During FY 2017-18, we institutionalised the HSIL Corporate Social Responsibility Foundation to steward our community initiatives. Under the Foundation, we will, through direct implementation and co-partnership,

support an assortment of causes and institutions in multiple areas, within the defined framework of The Companies Act, 2013.

**ENSURING BETTER SANITATION AND HYGIENE**

The problem of water and sanitation in the world is considered one of the major global challenges, following its inclusion in the United Nation's (UN's) 17 new Sustainable Development Goals. A large proportion of the population in India does not have access to basic sanitation facilities. According to a recent World Bank Report, over 20% of communicable diseases are contacted due to unsafe water and lack of hygiene practices. Unsafe

water is also the leading cause of diarrhoeal deaths in India. In view of this increasing awareness and as a leading player in the sanitaryware industry, we continued our participation in the larger nationwide movement regarding hygiene and sanitation.

Our HSIL Aap Ke Liye project undertook the construction of Community Water Centres (CWCs) in five villages. These CWCs are equipped with Reverse Osmosis (RO) technology with a capacity of 500 and 1,000 Litres per Hour (LPH). The villages are Pahlwasa (Rewari, Haryana), Naya Gaon and Rampura-2 (Alwar, Rajasthan), Rajpura and Daboda (Gurugram, Haryana).

We also supported Maheshwari Sabha Community Services Trust and Ankur Homes by providing them with sanitaryware products and faucets to help the community lead a healthier life.

We contributed towards project Swachh Vidyalaya (Clean India, Clean Schools). This programme includes the distribution of hygiene and cleanliness kits in schools and helps maintain cleanliness charts in primary schools.

**ENHANCING SKILL DEVELOPMENT**

For a developing economy like India, accelerated skill development is a priority. The Government of India's

Skill India programme underscores the urgency aptly. During the financial year, we supported multiple vocational training and skill enhancement programmes for upskilling youth. We initiated Kaushal Vridhi, a skill-enhancement programme, to impart skills to the villagers of Bahadurgarh (Jhajjar, Haryana) and Kaharani (Bhiwadi, Rajasthan) to enhance their employment opportunities.

Under our project Kushal Vikas, we established a skill development computer learning centre at Bahadurgarh (Jhajjar, Haryana). We are also contributing in enabling India's plumbing community through the Recognitions of Prior Learning (RPL) project. The programme provides training to improve the workmanship and earning potential of plumbers after evaluating their existing proficiency.

#### IMPROVING HEALTHCARE FACILITIES

Access to basic healthcare facilities is a fundamental right of mankind and we work towards raising the standard of healthcare facilities in the communities in which we operate.

We continued to support Swastha Sampada in Kaharani, Bahadurgarh, Bibinagar and Bhongir to provide basic healthcare facilities to villagers near these four production locations. During the year under review, we contributed to the construction of a pathology

## WE CONDUCT OUR BUSINESS WITH A HOLISTIC VISION FOR THE COMMUNITY.

**Dr. Rajendra Kumar Somany, Chairman and Managing Director**

laboratory at Shri Ram Krishna Cancer Hospital in Deoband, Uttar Pradesh for early diagnosis and treatment of the disease.

#### EMPOWERING WOMEN

HSIL has committed itself to promoting greater gender equality in line with the UN's Sustainable Development Goals. We believe in helping women become financially independent and uplifting their lives along with their families. With focused skill development programmes, we helped empower women in the communities where we operate.

Our Project Samarth helps women develop cutting and tailoring skills. Our objective is to involve more women in the programme in Bahadurgarh (Jhajjar, Haryana), thereby empowering them.

#### PROMOTING EDUCATION

Education is the principal catalyst of sustainable development. We have been participating in Government of India's literacy and education initiatives across communities for many years now. We conduct the literacy programme Prathamik

Saksharata Kendra for villagers in Bahadurgarh. Besides this, vocational training and computer literacy form a part of our other focus areas.

#### DRIVING RURAL DEVELOPMENT PROGRAMMES

Road connectivity plays an important role in mainstreaming remote areas of a vast country like India. To facilitate access of opportunities, we widened the road between Raigiri and Chityal villages in Nalgonda district of Telangana. The widened road eased the gridlock and contributed towards ensuring better mobility in the region.

**Despite shifting business dynamics and challenges, we will continue to reinforce our corporate citizenship initiatives, because they define our high ethical standards, commitment to leadership and excellence and our way of doing business sustainably.**

# Management Discussion and Analysis

Global economic dynamics are experiencing distinctive transformation over the last few years. This transformation is expected to lead to certain disruptions across the economies as conventional business practices are being challenged and new rules are being defined. This global transformation will also provide ample opportunities for agile and fleet-footed organisations who can continuously pace up their strategies for growth in highly competitive markets.

OUR DECISION TO RESTRUCTURE HSIL WILL LEAD TO SHARPER FOCUS ON INDIVIDUAL BUSINESSES AND ENABLE US TO BE MORE RESPONSIVE TO MARKET FORCES.

In light of unprecedented transformation, we, at HSIL, are recalibrating our strategy and approach, realigning our initiatives and striving to maintain and grow our market leadership across our existing businesses while continuing to explore newer synergies for expansion. We are banking on innovation and tomorrow-ready products to stay ahead of the curve, thereby ensuring that our customers continue to enjoy a world-class experience. We are also focusing our energies on expanding our consumer outreach and market penetration, further investing

in upgrading our manufacturing capabilities as well as building teams who will lead us into the future.

Our decision to restructure HSIL will lead to sharper focus on individual businesses and enable us to be more responsive to market forces. We will create a greater level of alignment with current and evolving customer aspirations as well as streamline our manufacturing, supplychain and branding. All this will lead to better operating efficiencies and in turn help usher in growth and value creation in the long run.

We are enthused by the growth potential and rising consumer aspirations in India, along with its integration with not just the global economy, but also with trends and market movements. More importantly, the Indian economy has demonstrated resilience and reinforced its promise through a redefined growth map, in turn presenting unparalleled opportunities for domestic and global businesses.

# Global Economic Review

In the year 2017, the world economy grew at 3.8% and this growth was the fastest since 2011. The rise in investments and trade was supported by stable earnings performance and gradual tightening of monetary policies in advanced economies. The US economy grew 2.3% in 2017, up 80 basis points over 2016. Favourable monetary policy and tight labour markets further strengthened the US economy. In eurozone, economic growth was at a 10-year high of 2.5%, propelled by robust domestic demand and increased exports. China led the growth for Asia, growing fastest since 2015 at 6.9%, on back of encouraging export momentum (Source: IMF, World Economic Outlook & Eurostat).

### OUTLOOK

The International Monetary Fund (IMF) raised global growth estimates for 2018 and 2019 by 0.2% over its October 2017 forecasts to 3.9% (Source: IMF, World Economic Outlook). According to the report, the prevailing global economic recovery offers opportunities to strengthen policies and reforms that secure the current upswing and raise medium-term growth forecasts. Going forward, there will be added focus on strengthening potential for a higher and an all-inclusive growth, improving the financial resilience to build a robust appetite for market risks and fostering international cooperation. Overall, the forecast is one of stability, even as certain markets will continue to grow faster than others.

**OVERALL, THE FORECAST IS ONE OF STABILITY, EVEN AS CERTAIN MARKETS WILL CONTINUE TO GROW FASTER THAN OTHERS.**

## GLOBAL GROWTH

# Indian Economic Review

FY 2017-18 was a landmark year for the Indian economy as it reinforced the country's status as one of the fastest growing economies in the world. More importantly, the resilience and fundamental strength of the economy got underscored, as it clocked a strong 6.7% growth despite multiple far-reaching reforms including demonetisation and initial impact of Goods and Services Tax (GST) implementation. The strong growth (albeit marginally lower than 2016-17) was underpinned by private consumption across semi-urban and rural areas, infrastructure spending and increased public-private investments. The relaxation of Foreign Direct Investment (FDI) limits in certain industries, as well as the uplift that exports got as a result of the global recovery, provided a further tailwind (Source: Second Advance Estimate, CSO).

## INDIA'S GROSS DOMESTIC PRODUCT (GDP) (%)

India's Index of Industrial Production (IIP) slowed to 4.3% in FY 2017-18 from 4.6% in FY 2016-17, largely due to a fall in capital goods production and weak mining activity. Despite this, the overall economic activity remained strong (Source: CSO). Moody's Investor Services also raised India's sovereign rating during the year, for the first time in 14 years, changing their outlook from stable to positive (Source: Moodys.com).

This performance also resulted in improved macro fundamentals, with the fiscal deficit at around 3.53% of GDP (~ ₹5.9 lakh crore) for FY 2017-18, largely in line with the Government's revised target of 3.5%. The aim is to bring this down to 3.3% in 2018-19 (Source: Controller General of Accounts).

The Reserve Bank of India (RBI) adopted an accommodative policy stance in FY 2017-18 and kept key rates largely unchanged. Retail inflation as measured by Consumer Price Index (CPI) fell to 4.28% in March 2018 (Source: Bloomberg). Other factors such as stability in food prices further contributed towards controlling inflation. This kept the consumer sentiment high and the wheels of the economy well-oiled.

India rolled out its biggest indirect tax reform in decades - the GST. GST is expected to unite the fragmented Indian market, create a level playing field, broaden tax net and foster transparency in the overall tax structure. It also intends to provide

greater opportunities for efficiency to prevail in the marketplace and facilitate shift of the business from unorganised to organised sector. The trickle-down effect of GST is expected to result in efficient businesses, lower logistical hassles and growth of the overall economy.

## India: Growth to continue

The growth momentum for India is expected to continue over the foreseeable future on the back of robust demand. The policy initiatives across sectors that strengthen fundamentals and quality of life – agriculture, rural economy, education and infrastructure – are all expected to start yielding results. In addition, focus on urbanisation, financial inclusion, digital economy, etc. are all expected to create greater opportunities for accelerated economic expansion.

### WHAT'S DRIVING CONSUMER DEMAND IN INDIA?

The Indian economy is experiencing healthy consumer-demand led growth. Two successive years of good monsoon, a young population and rising urbanisation, along with expanding middle-class are macro growth drivers. Over the last few years, the Government of India, too, has triggered multiple enablers to bolster consumption. Added spending on social schemes, continued thrust on rural infrastructure projects, hike in minimum support prices, implementation of the 7<sup>th</sup> Pay Commission and the One Rank One Pension scheme have led to higher disposable income and consumption.

Substantial investments in infrastructure will continue to propel India's growth in the years to come. To achieve sustainable,

equitable and inclusive growth, the Government is focusing on building social and physical infrastructure across transportation, sanitation, water, healthcare, energy, education and skill development areas. The 'Housing for All' and rural electrification initiatives are just two examples of how this is being driven from the ground to benefit everyone at the bottom of the pyramid. According to Boston Consulting Group, India is slated to become the world's third largest consumer economy by 2025.

### OUTLOOK

The Government of India has undertaken several reforms for promoting inclusive growth, improving business climate, widening tax base and addressing indigenous challenges for the Indian economy. These reforms are driving structural changes and taking the country into a higher and sustainable growth orbit. The impact of these initiatives have already begun to show, with the improvement of India's ranking in the World Bank's Ease of Doing Business Index from 130 in 2017 to 100 in 2018 (Source: firstpost.com). The medium and long-term outlook, too, remains promising.

### POLICY INITIATIVES SHAPING HSIL'S STRATEGY

HSIL, with its comprehensive national footprint, strong brand equity, superior quality products across a wide price spectrum and its manufacturing capabilities is well-positioned to benefit from strategic national policy initiatives currently underway. Some of these include:

#### Formalisation of the economy

The increasing formalisation of the Indian economy is estimated to reduce the number of cash transactions and enhance transparency, which will favour organised players across industries in the long run.

#### Smart Cities Mission

India is currently developing 100 smart cities at a total project cost exceeding ₹2,000 billion (Source: smartcities.gov.in). This is likely to bolster consumption of products in the building materials and home interiors

space. These projects are gathering traction as multiple funding sources such as Public Private Partnership (PPP), municipal bonds and Value Capture Financing (VCF) have been leveraged to fund the mission (Source: Smartnet).

#### Real estate reforms

'Housing for All' by 2022 and the 'Pradhan Mantri Awaas Yojana' initiatives are aimed at democratising access to affordable housing and the credit needed for it. The implementation of the Real Estate (Regulation and Development) Act (RERA), on the other hand, will improve transparency in the real estate sector and lead to timely completion of ongoing construction projects. This reform is expected to increase homebuyers' confidence in the developers and strengthen housing demand, leading to augmentation of the building and home improvement segment.

#### Shift in market share from unorganised to organised players in the home decor segment

The GST regime will help organised players in the consumer goods sector to gain market share from unorganised players, according to analysts, as the price differential of products is likely to reduce, while making tax evasion incrementally difficult and increasing compliance-related reporting requirements.

#### Swachh Bharat Mission

Launched in 2014, the Mission drives cleanliness and aims to make India 'open defecation free' by the end of 2019. This project continues to enhance awareness about the benefits of sanitation and has led to higher demand for sanitaryware products (including faucets) across the nation, thereby expanding the overall market size and target population.

# The World of HSIL

HSIL has, since inception, set a track record of leading the industry in terms of product development and diversification. We aspire to be an integrated building material player providing a wide range of home solutions and, in sync with this strategy, we are constantly exploring newer categories to be present in.

HSIL has been prompt in understanding and responding to emerging trends and evolving consumer aspirations, which have been swiftly imbibed into the Company strategy, propelling continuous growth and sustained market leadership. Today, HSIL has four broad business segments

namely, Building Products, Consumer Products, Retail and Packaging Products. Each of these businesses is a growth engine and thus, with the restructuring underway, the Company is designed for better focus, improved competitiveness and operational efficiencies of respective businesses.

# Building Products Division

## INDUSTRY OVERVIEW

### Sanitaryware

The size of India's sanitaryware industry is estimated at ₹4,400 crore, with unorganised players comprising nearly 40% of the market. As per unconfirmed industry sources, the sector is projected to grow at a Compounded Annual Growth Rate (CAGR) of around 8-10% over FY 2017-20 given the presence of multiple growth enablers.

### Faucets

The Indian faucets industry is currently estimated at ₹8,000 crore with expectation of market growing

at a CAGR of 13-15% over FY 2017-20 (unconfirmed industry sources). As per industry estimates, unorganised players cater to about 50% of the Indian faucets market.

### Pipes

The market size of India's plastic pipes industry stands at around ₹30,000 crore and is expected to grow at a CAGR of 14%. Within this, the market size of plastic pipes business catering to plumbing and sanitation in the building and construction industry is estimated at ₹8,500 crore. Unorganised players represent 35-40% of the domestic plastic pipes industry and are more prominent in

the irrigation and plumbing sectors (as per unconfirmed industry sources).

The sanitaryware, faucets and pipes segments are estimated to post favourable growth backed by proactive government policies for higher sanitation levels, favourable demographic and economic trends and development of urban infrastructure.

## GROWTH ENABLERS

### Growing disposable income

India's middle-class population is likely to double between FY 2016-26, with the working-age group forming

64% of the total population by 2020. The favourable demographics will strengthen disposable income and consequently bolster demand for discretionary products. Increasing number of consumers now perceive premium bathroom products, home décor and furnishings as a style statement. As the prosperity index increases in Tier II towns, the demand for superior and premium products from these geographies will attain sizeable scale.

#### **Growth in retailing**

Indian consumers prefer to focus on lifestyle considerations and the

need to 'keep pace' than on the need for functional necessities, especially in categories such as consumer durables and bathroom fittings. The level of involvement of women and family in bathroom design and product selection has increased significantly. As a result, consumers are looking to use digital tools at point of sale to help them understand and experience products in an engaging atmosphere. This has resulted in increased upgradation of retail shops from just hardware stores to expert stores with trained staff.

#### **Bathroom is becoming 'My Space'**

In recent years, a profound shift has taken place in the bathroom category. Bathrooms have evolved, from a functional space to an aesthetically rich form of experience and self-expression; as a result, there is a far higher consumer involvement in selection of bathroom products. The category has moved from a commodity to a more advanced and highly differentiated offering. Consumers are also looking at creating a spa-like experience at home to make their bathrooms a seamless extension of their lifestyle.

#### **Vast opportunity in the replacement market**

The replacement demand is projected to grow at a steady pace, driven by renovations and bathroom upgradation aligned to emerging trends. Rising awareness of benefits of plastic pipes compared to Galvanised Iron (GI) and Ductile Iron (DI) pipes is fuelling its demand, especially for Chlorinated Polyvinyl Chloride (CPVC) and Unplasticized Polyvinyl Chloride (UPVC) in the premium category. Thus, there is significant headroom for growth of the replacement market in the building products industry.

#### **Urban infrastructure**

Construction expenditure on bolstering infrastructure is estimated at ~₹5.97 lakh crore over FY 2018-19, driven primarily by programmes sponsored by state governments and the Government of India. Andhra Pradesh, Gujarat, Karnataka, Rajasthan, Telangana and Uttar Pradesh are attracting investments in Urban Water Supply & Sanitation (WSS) projects and thus will be at the forefront of emerging demand for pipes.

**BUSINESS OVERVIEW**

HSIL maintained its leadership position in the Indian Sanitaryware industry and continued to be one of the leading players in the country's faucets space. The Building Products Division is the flagship vertical of the Company, and comprises of sanitaryware, faucets, wellness products and plastic pipes and fittings.

HSIL has brands across the entire value chain, in the mass, premium, super-premium and luxury segments. The Company, through its vast range of products across these segments, addresses the bathroom needs of consumers.

Recently, HSIL ventured into the plastic pipes and fittings business, comprising PVC, CPVC, UPVC and SWR, to emerge as a comprehensive bathroom solutions provider. It manufactures plastic pipes and fittings, suitable for potable water transportation, water harvesting, underground drainage and sanitation applications, primarily for the building construction segment. Widespread distribution network with decades strong connect with dealers and distributors, along with being a trusted brand name in related bathroom products such as sanitaryware and faucets, will be an added advantage for us.

**Introduced the new super-premium brand 'ALCHYMI' curated by Manish Malhotra in Hindware Design Studio using our Flosense Technology.**

**KEY HIGHLIGHTS, FY 2017-18**

**Sanitaryware and faucets**

- Product offerings expanded to include automated flushing in QUEO series, voice-activated showering and rim-free technology in flushing
- Launched 20 new product ranges in sanitaryware and 10 in faucets to increase our presence across the price spectrum
- Enhanced brand visibility by adding 100+ brand stores across the country, bringing total number of brand stores to 310+
- Redefined Hindware's new brand identity around 'Start with the expert' and launched seven HW pillars - Expert Helpline, DreamBath App 2.0, DreamBath Visualisation Book, Hindware Design Studio, Expert website, Expert stores and In-store experts to help our consumers build their dream bathrooms

**Kaharani, Rajasthan faucet plant has achieved 90% capacity utilisation in the last quarter of FY 2017-18.**

**OUTLOOK**

The Building Products Division has achieved reasonable scale and offers a comprehensive product suite across its sanitaryware and faucets businesses. These segments will continue to grow by staying customer-centric and launching best-in-class innovative products. It has been our constant endeavour to build products that address the latent and emerging requirements of both existing and potential customers.

HSIL will continue to invest in innovation and is looking to adopt the most contemporary technologies,

such as Artificial Intelligence assisted products, to revolutionise the bathing experience.

After having commenced trial production of pipes during the year, the focus will now be on building a pan-India presence by organising various programmes to engage with the influencer communities of plumbing consultants and contractors.

We look forward to further expand our reach across online as well as offline mediums and simultaneously aid the process of productivity improvement across all our assets - plants, employees and distribution partners.

### Pipes and fittings

- Launched the pipes and fittings brand 'TRUFLO - by hindware'
- Commenced trial production at Medak, Telangana facility
- Conducted meets for plumbing consultants and independent contractors to generate product portfolio awareness as well as imparted training to them by offering programmes certified by the Indian Plumbing Skills Council (IPSC) and Indian Plumbing Council (IPC)

## 350+

Plastic pipes and fittings (SKU) licensed under the Bureau of Indian Standards (BIS)

First pipes manufacturing plant in India to be awarded Platinum rating by Indian Green Building Council (IGBC).

Agreement with ~ USD 10 Billion Japanese conglomerate, Sekisui Chemical Co. Ltd, for supply of National Sanitation Foundation (NSF) certified CPVC compound, Durastream, which enables 'TRUFLO' to make world-class CPVC pipes and fittings in India.

# Consumer Products Division

## INDUSTRY OVERVIEW

India's consumer durables market recorded a robust growth of 16.3% CAGR during FY 2012-17 and reached ₹1 lakh crore (USD 15.5 billion) in FY 2016-17 (Source: IBEF estimates). It is expected to increase to USD 46.5 billion by 2020. The country is emerging as the world's largest middle-class consumer market and is expected to be the fifth largest consumer durables market in the world by 2025. Currently, urban India contributes over 65% to the total revenue of the sector, while rural India accounts for the rest. Consumers are upgrading their home appliances at a fast pace and brands too have begun to upgrade and innovate products to meet the increasing demand of the market. The industry is slated for sustained growth over long term owing to favourable consumer demographics, availability of easy finance schemes, improved power situation, overall growth in the economy and infrastructure development across the nation, especially in semi-urban areas.

## GROWTH ENABLERS

### Evolving consumer demands

Changing consumer aspirations, higher disposable income and improving lifestyles are key demand drivers for consumer durables products market in India. Manufacturers are capitalising the requirements of India's rising middle-class, offering a range of products at multiple price points, to cater to the entire spectrum of demand.

### Growing per capita disposable income

India's per capita personal disposable income increased at 9.4% CAGR from ₹82,408 in FY 2012-13 to ₹128,894 in

FY 2017-18 and is consistently driving India's consumption (Source: CARE report). Rural disposable income is also expected to show an upward trend as a result of various schemes implemented by the States and the Central Government.

### Adopting energy-efficient technology

Consumer durables product manufacturers are focusing on delivering energy-efficient products to attract consumers. These products offer significant savings in electricity bills, a key benefit for users. Moreover, incorporation of Internet of Things (IoT) technology in consumer electricals further enhances convenience and improves consumer experience.

### Rising premiumisation across product categories

The exposure to global lifestyle has created a shift in perception among consumers who now demand superior aesthetics and top-end features in products. This has led to a sizeable appetite for premium products in even the Tier-II and Tier-III markets. As a result, manufacturers are turning towards premiumisation to add value and compete effectively in a market driven by discerning consumers.

### Growing Internet usage

India's e-commerce market is expected to cross USD 200 billion by the end of 2026 from USD 38.5 billion in 2017 as the number of internet-savvy population and online shoppers grow (Source: ibef.org). Consumer durables companies are enhancing their exposure to online sales, in order to scale their businesses and grow market share.

### Increasing use of digital payment options and plastic money

The Government of India's focus on achieving a 'less cash' economy has resulted in enhanced use of digital payment modes and plastic money. Organisations across industries are enabling these new-age payment options by providing special offers and discounts on their utilisation. Besides, year-round discounts on e-commerce sites, reduced tax rates and easy payment gateways available at lower costs are facilitating this trend.

### Augmented organised retail

The growth of organised retail is likely to have a positive impact on the consumer durables industry. Rising prominence of organised retailing will streamline the supply chain and facilitate further demand for high-end and trusted brands.

## BUSINESS OVERVIEW

With an aim to leverage its brand equity and entrenched distribution network, HSIL forayed into the consumer products business to participate in the growth story and has well succeeded in generating good volumes and reach out to a newer target audience. We launched a basket of path-breaking products, namely kitchen appliances (including chimneys, hobs, ovens, cooktops, dishwashers and kitchen sinks), vents, water heaters, water purifiers, air coolers and air purifiers, by partnering with leading global brands, ensuring an asset-light business model. Our focus on combining premium designs, innovation and cutting-edge technology has helped us to develop a modern and reliable range of products that has allowed us to

make rapid strides in the business. This strategy has helped us to be amongst the top three leading players in the kitchen chimney segment and be a part of key players in the premium water heaters and air coolers market. Our purification products (air and water purifiers) are also enjoying consumer popularity. HSIL is leveraging its deep understanding of consumer trends and responding with an array of contemporary home comfort products.

**OUR FOCUS ON COMBINING PREMIUM DESIGNS, INNOVATION AND CUTTING-EDGE TECHNOLOGY HAS HELPED US TO DEVELOP A MODERN AND RELIABLE RANGE OF PRODUCTS THAT HAS ALLOWED US TO MAKE RAPID STRIDES IN THE BUSINESS.**

**KEY HIGHLIGHTS,  
FY 2017-18**

- Maintained stupendous growth momentum with revenue of ₹208 crore
- Expanded distribution and retailer network to 575+ and 8500+ respectively, for deeper reach into the market and increased penetration
- Launched 40+ kitchen appliances products, 8 air coolers, 4 water purifiers and 7 water heaters
- Became one of the top three players in India’s kitchen chimney segment and launched 22 products in the category to reinforce market position

- Gained popularity for kitchen sinks within the first year of its launch
- Received ‘Asia’s Most Promising Brand’ Award 2017 from the World Consulting and Research Corporation (WCRC) for Moonbow

**OUTLOOK**

HSIL proposes to capitalise on the ongoing shift in water heaters and air coolers categories from the unorganised to the organised sector as well as aspires to be among the top three players in each of its product categories.

In the coming years, the Consumer Products Business will launch chimneys and water purifier

products, embedded with IoT technology. Having demonstrated remarkable growth in the kitchen appliances category over last three years, we look forward to being a major player in the coming years, with an aim of building strong brands, offering differentiated value propositions and further expanding our retail distribution network.

## INDUSTRY OVERVIEW

India's organised furniture market clocked ₹45,470 crore in 2017 and grew at a CAGR of 10.9% between 2012 and 2017, according to Euromonitor International. India's furniture industry entered the online space few years back and since then has been expanding, owing to growing internet penetration and consumer preference for online shopping. The entry of large global players in India is also expected to help grow the overall market for readymade furniture – both in brick-and-mortar retail and online. Also, an increasing number of domestic manufacturers are entering into tie ups with foreign manufacturers in order to improve product design and quality, which will further contribute to the growth of the market.

## GROWTH ENABLERS

### Expansion in real estate industry

Growing transparency (post RERA implementation) has led to increased

investor interest in the real estate sector, with FDI on the rise. The thrust in affordable housing is also contributing to this growth. Healthy prospects of both residential and office spaces augur well for India's furniture sector.

### Enhanced consumer interest

With evolving preferences and lifestyles and growing disposable income, the concept of home décor is transforming. Significant numbers of home owners are looking to renovate home interiors as well as exteriors, fuelling replacement market demand. Thus, the demand for home décor products is on the rise.

### Increasing urbanisation

Urban culture encourages individual lifestyle, thereby positively impacting the fashion, jewellery and home décor industries. India's home décor market is likely to witness a surge in demand in the near future with increased migration to urban India.

## Strong prospects for tourism and hospitality

Increasing focus of states on boosting tourism revenues will act as a catalyst for India's hospitality sector, leading to higher furniture demand and benefiting the larger, organised players in the sector.

## INDUSTRY OVERVIEW

### Glass

The world glass industry generates annual revenue of USD 75 billion, with leading exporters being the US, France, Japan, China, India and Germany. The most common products manufactured in the global glass industry are flat glass, glass containers, fibreglass and specialty products such as lenses, optic fibres, mirrors, glassware and TV tubes.

The market size of the glass industry in India was estimated at around ₹225 billion in 2012 and the share of organised market at about 55%, providing good upside potential. Major growth drivers for the country's glass industry are government schemes such as 'Housing for All'; RERA; growth in automobile production, increase in demand for energy-efficient product; increase in packaging requirements across alcohol, food and beverages and pharmaceuticals sector, etc. (Source: CARE report)

Glass container is a preferred packaging medium as it does not react with the ingredients and ensures preservation of taste and nutrition for a longer duration. The alcohol beverage industry also prefers glass bottles for packaging beverages such as beer, spirits and wines, as glass preserves the aroma, flavour and strength of the beverage. The pharmaceutical industry too, continues to prefer glass packaging due to its unique ability to maintain the chemical composition and preserve the quality and safety of the products. Furthermore, the per capita consumption of container glass in India is at 1.8 kg, much lower compared to other nations.

This will further contribute to growth of glass packaging. Given the sensitivity around environmental footprint and bio-degradability, the 100% recyclable nature of glass adds to its qualities as a preferred packaging medium.

### Polyethylene Terephthalate (PET)

The use of PET products has grown steadily worldwide, as PET is highly recyclable, compared to other plastic materials. PET's durability and flexibility continue to drive its global demand. The world's PET packaging market is expected to grow at a CAGR of 4.03% over FY 2018-23; and is expected to reach USD 69.7 billion. There is a growing demand for PET in packaging of beverages and fruit juices. (Source: Business Wire).

### Security caps and closures

The market size of counterfeit-resistant caps and closures in emerging economies is expected to witness high growth to curb influx of spurious products, which adversely affect genuine manufacturers' revenues and cause collateral damage to their brand image.

Currently the alcohol beverage industry in developing countries is driving the demand, but going forward, customer base may be expanded to include other industries such as pharmaceuticals, edible oil and lubricants, etc.

## GROWTH ENABLERS

### Easing of ban on liquor shops on state and national highways

Hon'ble Supreme Court of India's order, issued in December 2016, imposing ban on sale of liquor within 500 metres of national and state highways adversely affected

the liquor business. However, the Hon'ble Supreme Court later clarified in August 2017 that its original order to ban sale in liquor shops and bars within 500 metres of highways was aimed at vendors along roads connecting cities and not stretches that fall inside the city or town areas governed by municipal bodies. With the situation normalising after clarification, liquor sales (and hence sales of liquor bottles) are likely to improve.

### Glass bottles to continue dominating alcohol packaging

Glass bottles remain the preferred packaging material for alcohol makers, given their recyclability. Both consumers and alcohol makers associate glass bottles with high-quality and purity of taste, which works in favour of this segment. (Source: mordorintelligence.com)

### Increasing application of glass container

Going forward, glass container will find more usage across various industry verticals, especially in the ready-to-drink beverages segment. As many State Governments are discouraging the use of plastic packaging due to environmental concerns, the glass containers market seems to be in a better position to grow as a preferred alternative.

### Sustained PET growth

PET plastic bottles are a popular and economical choice for packaging soft drinks, fruit juices, bottled water and other Fast-moving Consumer Good (FMCG) products. Growing scale and enhanced product diversification of industries using PET packaging is consistently driving demand.

**Pharmaceutical packaging market**

India’s pharmaceutical packaging market is expected to reach USD 3.57 billion at 9.2% CAGR during FY 2018-23. Currently, it constitutes approximately 4% of the global packaging industry and is expected to grow owing to healthy prospects of the organised retail and e-commerce packaging sector. Rising pharmaceutical exports from India will also contribute to the growth of the pharmaceutical packaging segment. (Source: mordorintelligence.com)

**Tackling the menace of counterfeit goods**

Industries such as beverage, liquor, pharma, edible oil and lubricant, across developing economies in the world, are facing the growing menace of counterfeiting of their products eating into their sales and adversely affecting their brand equity. These industries are looking for counterfeit-resistant security caps and closures with enhanced features such as improved sealing with ease of opening and closing and multiple design possibilities at reasonable price points. Consumer-friendly packaging and security innovation features of such security caps and closures makes

identification of a genuine product easy.

**BUSINESS OVERVIEW**

HSIL is one of India’s significant manufacturers of glass containers. The Packaging Products Division comprises three businesses – Glass containers, including specially coloured glass bottles, PET and counterfeit-resistant security caps and closures.

Our constant thrust on product innovation, best-in-class technology and customer centricity has helped us maintain industry prominence in the glass container packaging segment. The glass containers and PET bottles are available under brands AGI and GP, respectively. Our newly launched Security caps and closure products are available under brand AGI Clozure.

HSIL has an installed capacity of 1,600 tonnes per day for glass containers across two manufacturing plants (Sanathnagar and Bhongir in Telangana). Spurt in demand has led to restarting of Furnace III, shutdown since August 2012, in last quarter of FY 2017-18. We offer customised products and solutions in PET through three state-of-the-art facilities (annual

capacity: 10,166 tonnes) in Selaqui (Uttarakhand), Medak (Telangana) and Dharwad (Karnataka). In order to enhance capacity utilisation and backward linkage, we have started manufacturing seat covers and cisterns for our Building Products Division.

HSIL commenced commercial production of first phase of security caps and closures in Medak, Telangana in the last quarter of FY 2017-18. These security caps and closures help prevent the counterfeiting of liquor and pharmaceuticals; and are an integral part of the packaging industry. HSIL offers unique patented technology and security features, which will drive demand for these products.

**COMMENCED PRODUCTION OF FIRST PHASE OF SECURITY CAPS AND CLOSURE IN JANUARY 2018.**

**KEY HIGHLIGHTS, FY 2017-18****Glass containers**

- Despite demonetisation and GST implementation causing temporary disruption in the supply chain, sales (net of excise/GST) of glass business increased over the previous financial year
- Restarted Furnace III, anticipating rise in demand of glass containers
- Developed 63 new designs during the year
- Expanded the use of Narrow Neck Press and Blow (NNPB) technology, thereby reducing the bottle weight by 10-40%
- Proactive marketing initiatives helped add 135 new customers spread across various sectors
- Serving marquee clientele for decades with over 93% of the business generated from repeat customers, a consistent measure of client satisfaction and quality performance

**PET**

- Augmented capacity by starting 3rd manufacturing facility at Medak, Telangana
- Started manufacturing of plastic products such as seat covers and cisterns, among others, for the sanitaryware business
- Developed 6 new products in PET business during the year

**Security caps and closures**

- Forayed into this business with patented (applied) product range, unleashing new domestic as well as export markets
- Commenced production of first phase of security caps and closures in January 2018

**OUTLOOK**

The growing product range and a variety of downstream industries will drive the growth of Indian packaging industry. In terms of packaging material, glass container and PET will be among major share gainers. HSIL aspires to consistently invest in product innovation to address a larger share of client requirements. Going forward, we will focus on optimising existing capacities and driving cost efficiencies across our plants.

For security caps and closures, we are looking to expand the annual capacity to 1 billion pieces by March 2019 to tap the growing demand for this niche product. Given our best-in-class technology, patented products and the limited competitive intensity, we are likely to achieve higher margins from the security caps and closure business as the volume gains momentum.

# Figures for these years are as per new accounting standards (Ind AS) and Schedule III of Companies Act, 2013. Return on networth and return on average capital employed of these years are computed on the basis of figures as per Ind AS. Further these figures are including the figures of demerged undertaking of subsidiary Hindware Home Retail Private Limited. Hence these numbers are not comparable with previous years. Figures of the previous year 2016-17 have been regrouped, wherever necessary, to make them comparable with the year 2017-18.

# Human Capital

HSIL's refreshed and reimagined business strategy is translated on-ground by its empowered team. Innovative Human Resource (HR) practices enable us to create an open environment for employees and develop high-performing teams to achieve organisational goals.

The Company's value-driven ecosystem forms the heart of all its HR policies. It attracts, develops, motivates, nurtures and retains talent. The senior leadership provides hands-on guidance to all members, down the pyramid to strengthen transparency, build trust and encourage seamless knowledge transfer. Our focus on developing cross-functional teams to foster synergies enables us to achieve strategic priorities. As on March 31, 2018, the workforce strength was over 4,100.

## NURTURING TALENT

We have developed a well-defined recruitment strategy for onboarding talent for our diverse business segments. High-performance and trust are the guiding principles of the HR policy. Every business vertical is empowered to outline its HR strategy depending on its structure and growth trajectory. In-house training programme 'Saksham' sharpens skillsets of employees and empowers them to work with varied on-field sales teams. Additionally, we hire young talent from Premier Management Institutes and are always slotted for Day 0 Campus hiring.

The Company uses personalised skill assessment modules and routinely maps competencies to business objectives at tailor-made development centres to further strengthen its talent pool. HSIL also facilitates cross-functional development of employees, offering team members opportunities to

expand their repertoire of skills. We strive to engage right talent for the right role to accomplish the desired business objectives. During FY 2017-18, over 100 employees were nominated for the development centre programme.

## EMPLOYEE ENGAGEMENT

The Company encourages exchange of ideas between teams and Senior Management through informative and interactive forums such as town halls. Greater transparency and openness in communication instils confidence among our people and help us to better understand the aspirations of our employees. A responsive management, together with a robust talent pool, represents a powerhouse of dynamism, innovation and efficiency.

HSIL invests in its employees through initiatives focused on employee development and retention and provides benefits like interest-free loans for eligible employees, an open-door policy and flexi-working hours.

## PERFORMANCE MEASUREMENT

HSIL continued a strong culture of high performance by timely setting of targets, clarity on goals and measurement criteria. Mid-year and annual performance reviews are conducted to make proactive mid-course assessments of employees. Our increased emphasis on quality of discussion between employees and their reporting managers ensures a productive and development-oriented experience.

# Risk Management

HSIL's effective risk management system continues to evolve. It enables the Company to achieve its strategic objectives and deliver sustainable, long-term growth with a commitment to responsible business practices.

**THE KEY ELEMENTS OF OUR RISK GOVERNANCE FRAMEWORK ARE:**

- Identification of principal risks that are likely to have a direct impact on strategic objectives
- Evaluation of identified risks and analysis of their potential impact
- Mitigation of identified risks in appropriate ways
- Monitoring and reviewing of the effectiveness of controls in place

**SOME OF THE KEY RISKS FACING OUR BUSINESSES AND THEIR MITIGATION STRATEGIES ARE OUTLINED BELOW:**

RISK	MITIGATION
<p><b>Economic volatilities</b> Economic uncertainties can undermine the demand for our products</p>	<p>India continues to be one of the fastest growing economies of the world. HSIL's presence across four business segments offers a diverse income portfolio and safeguards it from a downturn in any one sector. Growing aspiration and rapid urbanisation are consistently driving the demand of HSIL's products.</p>
<p><b>Unorganised sector</b> Low-priced products offered by unorganised players can erode market share</p>	<p>Propelled by the GST ecosystem, market share across product categories is expected to gradually shift in favour of large organised players. HSIL stands out as one of the trusted players across its segments and offers attractive quality products across a wide range of price points.</p>
<p><b>Lack of innovation</b> Inability to anticipate evolving trends and design products accordingly may adversely impact business growth</p>	<p>We regularly conduct in-depth market research to develop products aligned to evolving customer preferences and also offer an extensive basket of products, with smart features, to consumers across the value chain.</p>
<p><b>Raw material supply</b> Inability to ensure seamless high-quality raw material supply at right prices could interrupt operations</p>	<p>The Company has broad-based its raw material sources, avoiding dependence on a few suppliers. HSIL engages with all its vendors regularly for optimised inventory planning.</p>
<p><b>Quality issues</b> Inconsistencies in product quality might trigger customer attrition</p>	<p>The Company has incorporated globally benchmarked stringent and comprehensive quality checks across the manufacturing value chain. We also maintain strict quality controls over suppliers of traded products, keeping in line with the quality standards of our manufacturing. Our products undergo a series of quality tests and checks to ensure lower rejection rates and minimal customer complaints.</p>

## RISK

## MITIGATION

**Lack of prominence**

Poor marketing and distribution can jeopardise business growth

We are continuously strengthening our distribution network across India for all businesses with focus on increasing presence across Tier-II, Tier-III and Tier-IV towns. We have undertaken strategic marketing initiatives to popularise products and to enhance presence on various e-commerce platforms as an additional distribution channel.

**Operational bottlenecks**

Operational hassles may impact production

HSIL's manufacturing assets are fully integrated state-of-the-art facilities with world-class process and practices embedding new technologies and automation to improve processes and product quality. Consistent focus on process debottlenecking and Total Productive Maintenance (TPM) have helped improved input-output ratio.

**Quality of team**

Inadequate competencies and lack of experience of team members may impact business progress

The Company has appointed qualified and well-experienced personnel at key positions for better execution of processes and encourages employees to excel through proactive engagement activities. At HSIL we provide industry-specific training and attractive incentives for superlative performance.

**Working Capital Management**

An inability to address short-term financing needs can adversely affect the growth prospects of the Company

The Company plans to optimise its working capital requirements in the years ahead by optimising its receivables and inventory cycles and extending its payable cycle.

**Credit Standing**

Inadequate funds may impact the daily operations of the Company

Enduring lender relationships and a high credit profile have ensured that funds are readily available to the Company at competitive costs. Calculated steps are taken to reduce the cost of long-term debt and increase the maturity of proposed debts. The result: the Company enjoys a superior credit rating of AA-.

**High volatility in real estate industry**

Sluggish growth in the real estate sector could affect the profitability of the Company

Various initiatives undertaken by the Central Government such as Housing for All by 2022, Affordable Housing Scheme, implementation of the Real Estate (Regulation and Development) Act (RERA), Smart Cities mission and the growing flow of FDI into Indian real estate sector are expected to stimulate construction and renovation, increasing the demand for Company's products. Moreover, with around 75 % of HSIL's revenue in the Building Products Division generated from the retail segment, the Company isn't overly dependent on any specific segment.

**Rising competition**

Intense competition can lead to a loss of market share, sales and profits

The Company commands edge over competitors due to its brand equity and a high product recall earned over decades. Besides, HSIL's products are available across price spectrum to connect with a wider customer base. Strategic marketing activities have allowed HSIL to serve more customers and satisfy them with dedicated after-sales services.

**Entry of multinational players**

The arrival of deep-pocketed global players can upset the sectoral equilibrium

HSIL's trusted legacy, pioneer and world-class quality products, entrenched distribution network, loyal customer base and widespread service network provide an edge in facing challenges from multinational players.

**Threat from PET packaging**

Rise in the demand of plastic packaging products could affect prospects of glass container business

An increased emphasis on eco-friendliness is expected to drive the growth of glass container as a packaging material. Its inert nature, aesthetic appeal and cleanliness are expected to serve it in good stead. Our presence in the PET segment will help us to capture the market share in that segment.

**Dependence on few customers**

An excessive dependence on a few clients can affect sales

HSIL has a widespread and loyal customer base across different industries. The Company has always focused on building long-term and rewarding associations with clients across industries.

# Internal Control Systems

The internal control systems are commensurate with the size, scale and complexity of the operations of the Company. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with the applicable statutes, safeguarding assets from unauthorised use, executing transactions with proper authorisation and ensuring compliance with corporate policies.

The Company uses SAP - a well-accepted enterprise resource planning (ERP) system to record data for accounting, consolidation and management information purposes and connects to different locations for efficient exchange of information. The Company has continued its efforts to align all its processes and controls with best practices.

The Audit Committee of the Board of Directors, comprising

Independent Directors, reviews the effectiveness of the internal control system across the Company including annual plan, significant audit findings, adequacy of internal controls and compliance with accounting policies and regulations.

## CAUTIONARY STATEMENT

Certain statements in the Management Discussion and Analysis describing the Company's objectives and predictions may be 'forward-looking statements' within the meaning of applicable laws and regulations. Actual results may vary significantly from the forward-looking statements contained in this document due to various risks and uncertainties. These risks and uncertainties include the effect of economic and political conditions in India, volatility in interest rates, new regulations and Government policies that may impact the Company's business as well as its ability to implement the strategies it devises for the future. The Company does not undertake to update these statements.

### CONSERVATION OF ENERGY, RESEARCH AND DEVELOPMENT, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNINGS AND OUTGO

#### (A) CONSERVATION OF ENERGY

##### (i) The steps taken or impact on conservation of energy

The Company has been continuously making efforts to optimise energy consumption. The Company has been choosing the most energy efficient equipments. Towards this, energy consumption is closely monitored and controlled. The Company is continuously making efforts to reduce waste in all its operations.

Energy constitutes a major part of cost and therefore we always focus on the areas of potential energy saving in the plants and offices. Being an ISO 14001 certified Company, we are committed to minimise the use of natural resources. We acquire knowledge from various sources about the technological upgradation/innovations in manufacturing processes and choose and install the most energy efficient equipments to ensure optimum use of energy.

##### a) Building Products Division (Sanitaryware and Faucets)

Energy being a major part of cost structure, we always make efforts to reduce energy consumption. For strict monitoring of the electricity consumption we have installed an online software system for monitoring, data collection and analysis of the energy at all the core equipments level in one of the plant. For fuel consumption monitoring we have flow meters at all the required locations in the plant. Based on the data analysis and observations we take appropriate corrective actions to minimise the use of energy. As per technological upgradation/innovations in ceramic manufacturing processes, we choose and install the most energy efficient equipments in the plant to ensure optimum use of energy.

##### b) Packaging Products Division (Glass and Plastic Products)

- Audit of compressed air system and arresting of air leakages.
- Replacement of conventional light fittings with energy efficient LED light fittings.
- Replacement of old air conditioners with star rating A/CS.
- Arrangement of timer based on off controls to avoid idle running.
- Installation of LED lights in place of conventional lights.
- Improvement in plant power factor.
- Conducted a detailed energy audit of the plant through M/s TERI for identifying the new ideas.

##### (ii) The steps taken by the Company for utilising alternate sources of energy

##### a) Building Products Division (Sanitaryware and Faucets)

Installation of solar power plants at Bahadurgarh Sanitaryware Plant (Plant 1) - 300 KWp, Bibinagar Sanitaryware Plant (Plant 2) - 1500 KWp and at Kaharani Faucets Plant - 598 KWp.

##### b) Packaging Products Division

For utilisation of alternate source of energy, we have considered solar power to be installed at our warehouse roof tops and ground. The project is under progress and expected to be commissioned in the second quarter of FY 2018-19.

## SECTION E: PRINCIPLE-WISE PERFORMANCE

### Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability.

#### 1. Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs/Others?

The Company's policies on Ethics, Transparency and Accountability, along with the Code of Conduct, is applicable to all individuals working in the Company and its subsidiaries. For the foreign subsidiaries, the code is applicable in line with the local requirements prevailing in the country of operation. The Company encourages its business partners to follow the code.

#### 2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management?

Stakeholder	Complaints received during FY 17 -18	Complaints Resolved during FY 17 -18	Complaints Resolved (%)
Investors' Complaints	24	24	100
Consumers' Complaints	574761	573790	99.83
<b>Total</b>	<b>574785</b>	<b>573814</b>	<b>99.83</b>

### Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle.

#### 1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

We have developed many water saving sanitaryware products and 24 such products got Star Rating from IAPMO for water saving. Three of these products are as under:-

- Olivia One Piece Closet
- EWC WM Element
- EWC Florence 'S' with Cistern

In Faucet Division we have received IAPMO certification for water saving for 20 Faucets during the year.

However, in Packaging Products Division, the Company has developed Lower Weight NNPB, Press & Blow and Blow & Blow bottle, which is helping to contribute positively by reducing GHG emissions.

#### 2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional) :

##### ● Building Products Division

- Sanitaryware: Each product when used in toilet saves around 65,000 liters of water per family (Average family of 4 people) per year.
- Faucets: Each product when used saves around 50,575 litres of water per family (Average family of 4 people) per year.

##### ● Packaging Products Division

Each MT of Glass Production requires the below resources:

Electricity : 418 Units  
Fuels : 133 Kgs.

#### a. Reduction during sourcing/production/distribution achieved since the previous year throughout the value chain?

##### ● Building Products Division

For sanitaryware manufacturing our R&D Department is regularly working on substituting raw materials which are near to plant locations.

For faucets more and more numbers of local vendors are being developed for components. Value engineering projects are also taken up to reduce input cost.

##### ● Packaging Products Division

Reduction of raw material cost by developing local and alternative vendors and increasing share of quartz sand sourcing from captive mines.

#### b. Reduction during usage by consumers (energy, water) has been achieved since the previous year?

##### ● Building Products Division

Estimated 52% of water saving than normal products in Star rated certified products.

##### ● Packaging Products Division

Fuel consumption for transporting lower volume of glass saved by reducing the bottle weight by 15 to 20% on certain specific segments.

#### 3. Does the company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

The Company has been procuring most of the inputs from sustainable sources and our R&D Centre which

is recognized by the Department of Science and Technology, Government of India, is continuously working on finding alternate sources of raw materials. There is a proper inventory monitoring system in place to ensure procurement of raw materials as per production requirement. The Company has also worked hard to reuse part of rejected material in the manufacturing process.

There is a team which is continuously working on vendor development finding alternate sources for better sustainability. Vendor audit, validation and assessment of their capability for sustainable supply is part of vendor development process.

**4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?**

● **Building Products Division**

Most of our mineral raw materials are procured from the nearest areas to the manufacturing locations and these vendors are SMEs. For our faucet manufacturing, many components are procured from small vendors located near the plant.

The introduction of GST has made taxation structure very uniform resulting in more sourcing from nearby SMEs as there is no difference in tax cost. This has resulted in reduction of losses due to long distance transportation.

One of the packing materials which is Paddy Straw is procured from farmers and card board boxes are also procured from the local vendors.

● **Packaging Products Division**

Except Soda Ash which is imported, all the raw materials (glass cullet, quartz sand, all card board packaging materials) are sourced from local suppliers. The fuels are sourced from the local suppliers both PSUs and Private suppliers.

**5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5 - 10%, >10%). Also, provide details thereof, in about 50 words or so.**

● **Building Products Division**

For sanitaryware manufacturing, large part of such rejection is used by regrinding. In faucet plant, there is no wastage and all process rejections are re-melted and reused.

Further, in the faucet manufacturing process multiple re-use of packing material in various stages of manufacturing has been introduced to reduce wastage of packing material.

● **Packaging Products Division**

- a) Waste generated from glass bottle production (Rejections) during manufacturing is 100% recycled which is >10%.
- b) ESP (Electrostatic Precipitator) was installed to remove Sox and particulate matter from chimney flue gas. Waste collected through ESP plant is reused as raw material.
- c) Effluents are treated and recycled, >10%.

**Principle 3: Businesses should promote the well-being of all employees**

The dealer preferred an appeal before the Hon'ble Competition Appellate Tribunal (COMPAT) against the said order and the Hon'ble COMPAT vide its order dated 7 July 2014 disposed off the appeal by giving liberty to the dealer to approach the Commission for any possible violations of the Competition Act. Subsequently the dealer filed the case for the second time before CCI wherein again Hon'ble CCI found that no prima facie case of contravention of the provisions of Competition Act was made out against the Company. Thereafter the dealer filed appeal before Hon'ble COMPAT against the order of Hon'ble CCI and said appeal was dismissed by Hon'ble COMPAT vide order dated 29 November 2016. However, the said dealer has preferred an appeal before Hon'ble Supreme Court against the said Order of Hon'ble COMPAT and said appeal is subjudice.

**4. Did your company carry out any consumer survey/ consumer satisfaction trends?**

Since the inception of the Company, it has been our passion to deliver world class solutions, suiting every requirement of our customers, through constant development and unmatched customer service and support. With over 58 years, HSIL has established itself as leading and trusted brand, known for excellence in innovation and prompt after sales services.

In order to measure customer satisfaction, we had adopted following two scientific and trust worthy methods:

**1) 4 digit Unique Secret Code by using advanced technology :** Where a system generated 4 digit secret code is being delivered only to customer's mobile through auto SMS at the time of registration of complaint and customer will share this Code with Service Engineer only if they are completely satisfied with our service.

**2) Happy calling to customers:** Where our Call Center Agents are calling to the customers directly to check their satisfaction level.

Those innovative, technology driven processes had helped us to measure Customer Satisfaction (C-SAT) and hence to ensure world class service support to our valuable customers.

# Independent Auditor's Report

To The Members of

**HSIL Limited**

## REPORT ON THE STANDALONE FINANCIAL STATEMENTS

We have audited the accompanying standalone financial statements of HSIL Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2018, the Statement of Profit and Loss (including the statement of Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "standalone financial statements").

## MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

## AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

## OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31 March, 2018, and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

## OTHER MATTERS

Attention is drawn to Note 55(a) to the financial statement regarding the utilisation of the Business Reconstruction Reserve ('BRR') to the extent of ₹ 210.64 lakh which was created in accordance with a scheme of arrangement (the scheme) approved by Hon'ble High Court of Calcutta. During the year the Company has impaired its investment in a foreign subsidiary amounting to ₹ 210.64 lakh and charged the same as exceptional item to standalone statement of profit and loss and withdrawn equivalent amount from BRR.

## Annexure – B to the Auditors' Report

### REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (i) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of HSIL Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in

accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

## MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

## INHERENT LIMITATIONS OF FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility

of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The goods and services are sold both on their own in separate identified contracts with customers and together as a bundled package of goods and/or services. The new revenue standard provide for either full retrospective application or modified retrospective application for annual period beginning on or after 1 April, 2018.

The Company will adopt the standard on 1 April, 2018 by using the cumulative catch-up transition approach and accordingly comparatives for the year ending or ended 31 March, 2018 will not be retrospectively adjusted. The effect on adoption of Ind AS 115 is expected to be insignificant.

Additional disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers, are required to be made.

#### Ind AS 21, Foreign currency transactions and advance consideration

Appendix B of Ind AS 21 has clarified that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, shall be date when an entity has received or paid advance consideration in a foreign currency.

The Company has evaluated the effect of this on the financial statements and the impact is not material.

#### Amendments to Ind AS 12 - Recognition of Deferred Tax Assets for Unrealised Losses

It has been clarified that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. It also provide guidance about how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount. Entities are required to apply the amendments. These amendments are effective for annual periods beginning on or after 1 April 2018 (applying retrospectively). These amendments are not expected to have any impact on the Company as the Company has no deductible temporary differences or assets that are in the scope of the amendments.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION

### 3.1 Statement of compliance with Indian Accounting Standards (Ind AS)

The standalone financial statements of the Company have been prepared in accordance with Ind AS notified by the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. Accordingly, the standalone financial statements for the year ended 31 March 2018 are prepared complying applicable Ind AS.

The standalone financial statements of HSIL Limited as at and for the year ended 31 March 2018 (including comparatives) were approved and authorised for issue by the Board of Directors on 30 May 2018.

# Significant Accounting Policies and Other Explanatory Information to the Standalone Financial Statements

for the year ended 31 March 2018

## 3.2 Historical cost convention

These standalone financial statements have been prepared on a historical cost convention except where certain financial assets and liabilities have been measured at fair value.

## 3.3 Business combinations

Business combinations involving entities under common control are accounted for using the pooling of interests method. The net assets of the transferor entity or business are accounted at their carrying amounts on the date of the acquisition subject to necessary adjustments required to harmonise accounting policies. Any excess or shortfall of the consideration paid over the share capital of transferor entity or business is recognised as capital reserve under equity.

## 3.4 Goodwill

Goodwill represents the future economic benefits arising from a business combination that are not individually identified and separately recognised. Goodwill is carried at cost less accumulated impairment losses.

## 3.5 Revenue recognition

Revenue arises from sale of goods and rendering of services. It is measured at the fair value of the consideration received or receivable excluding sales tax and reduced by any rebates and trade discount allowed.

### Sale of goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the entity; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

### Rendering of services

Revenue from a contract to provide services is recognised in the accounting period in which such services are rendered. For fixed price contracts, revenue is recognised based on the actual service

provided to the end of the reporting period as a proportion of the total services to be provided.

### Interest and dividends

Interest income and expenses are reported on an accrual basis using the effective interest method. Dividends are recognised at the time the right to receive payment is established.

## 3.6 Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.

### Company as the lessor

Finance leases that transfer substantially all of the risks and benefits incidental to ownership of the leased item, are capitalised at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and a reduction in the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss.

### Company as the lessee

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the statement of profit and loss on straight-line basis unless the payments are structured to increase in line with expected general inflation to compensate for lessor's expected inflationary cost increases.

## 3.7 Foreign currency transactions and translations

### Initial recognition

The Company's standalone financial statements are presented in INR, which is also the Company's functional currency. Transactions in foreign currencies are recorded on initial recognition in the functional currency at the exchange rates prevailing on the date of the transaction.

# Significant Accounting Policies and Other Explanatory Information to the Standalone Financial Statements

for the year ended 31 March 2018

## Measurement at the balance sheet date

Foreign currency monetary items of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

## Treatment of exchange difference

Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

## 3.8 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale.

All other borrowing costs are expensed in the period in which they are incurred and reported in finance cost.

## 3.9 Government grants

The Company received refundable government loans at below market rate of interest which are accounted in accordance with the recognition and measurement principles of Ind AS 109, Financial Instruments. The benefit of below- market rate of interest is measured as the difference between the initial carrying value of loan determined in accordance with Ind AS 109 and the proceeds received. It is recognized as income when there is reasonable assurance that the Company will comply with all necessary conditions attached to the loans. Income from such benefit is recognized on a systematic basis over the period of the loan during which the company recognizes interest expense corresponding to such loans.

The company is entitled to subsidies from government in respect of certain government schemes.

Income from subsidies is recognized on a systematic basis over the periods in which the related costs that are intended to be compensated by such subsidies are recognised.

## 3.10 Employee benefits

Employee benefits include provident fund, pension fund, gratuity and compensated absences

### Defined contribution plans

The Company's contribution to provident fund and pension fund is considered as defined contribution plan and is charged as an expense as they fall due based on the amount of contribution required to be made and when services are rendered by the employees. The Company has no legal or constructive obligation to pay contribution in addition to its fixed contribution. The interest rate payable to the members of the trust shall not be lower than the statutory rate of interest declared by the Central Government under Employees Provident Fund and Misc. Provisions Act, 1952 and short fall, if any, shall be made good by the company.

In respect of certain employees contributions are made to a trust administrated by the Company/ employees.

### Defined benefit plans

For defined benefit plans in the form of gratuity, the cost of providing benefits is determined using 'the Projected Unit Credit method', with actuarial valuations being carried out at each Balance Sheet date. Re-measurements, comprising of actuarial gains and losses are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to the statement of profit and loss in subsequent periods. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost.

### Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and

# Significant Accounting Policies and Other Explanatory Information to the Standalone Financial Statements

for the year ended 31 March 2018

- (b) in case of non-accumulating compensated absences, when the absences occur.

## Long-term employee benefits

Compensated absences which are allowed to be carried forward over a period in excess of 12 months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date out of which the obligations are expected to be settled.

## 3.11 Taxation

Tax expense recognised in the statement of profit or loss comprises the sum of deferred tax and current tax not recognised in other comprehensive income or directly in equity.

### Current tax

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting periods, that are unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred income taxes are calculated using the liability method on temporary differences between the carrying amounts of assets and liabilities and their tax bases.

Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The Company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset, the said asset is created by way of credit to the statement of Profit and Loss and shown as "MAT Credit Entitlement".

The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period. The MAT Credit Entitlement is disclosed under the head 'Deferred tax liabilities (net)'.

### Deferred tax

Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss or deductible temporary difference will be utilised against future taxable income. This is assessed

based on the Company's forecast of future opening results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit.

Deferred tax liabilities are generally recognised in full, although Ind AS 12, Income Taxes, specifies limited exemptions.

Changes in deferred tax assets or liabilities are recognised as a component of tax income or expense in the statement of profit or loss, except where they relate to items that are recognised in other comprehensive income (such as the revaluation of land) or directly in equity, in which case the related deferred tax is also recognised in other comprehensive income or equity, respectively.

## 3.12 Operating cycle

Based on the nature of products/activities of the Company and the normal time between purchase of raw materials and their realisation in cash or cash equivalents, the Company has determined its operation cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

## 3.13 Operating expenses

Operating expenses are recognised in statement of profit or loss upon utilisation of the service or as incurred. Expenditure for warranties is recognised when the Company incurs an obligation, which is typically when the related goods are sold.

## 3.14(a) Property, plant and equipment

Freehold land is carried at historical cost except for certain class of land which had been revalued in financial year 2009-10 and 2011-12. All other items of Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any.

Property, plant and equipment are stated at their original cost including freight, duties, taxes and other incidental expenses relating to acquisition and installation.

The carrying amount of assets, including those assets that are not yet available for use, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, recoverable amount of asset is determined. An impairment loss is recognised in the statement of profit and loss whenever the carrying amount of an asset exceeds its recoverable amount. An impairment loss is reversed only to the extent that the carrying amount of asset does not exceed

# Significant Accounting Policies and Other Explanatory Information to the Standalone Financial Statements

for the year ended 31 March 2018

the net book value that would have been determined if no impairment loss had been recognised.

When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognises the new part and is depreciated accordingly. Further, when major overhauling/ repair are performed, the cost associated with this is capitalised, if the recognition criteria are satisfied, and is then depreciated over the remaining useful life of asset or over the period of next overhauling due, whichever is earlier. All other repair and maintenance costs are recognised in the statement of profit and loss as and when incurred.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

## (b) Intangible assets

Intangibles are stated at cost less accumulated amortization and impairment losses (if any). Cost related to technical assistance for new projects are capitalized.

## (c) Capital work-in-progress

Expenditure incurred during the period of construction, including all direct and indirect expenses, incidental and related to construction, is carried forward and on completion, the costs are allocated to the respective property, plant and equipment. Capital work-in-progress includes capital inventory.

## 3.15 Depreciation and amortisation

Depreciation is charged on a pro-rata basis on the straight line method at rates prescribed in Schedule II to the Companies Act, 2013 and is charged to the statement of profit and loss. Freehold land is not depreciated.

The estimated useful life of the items of property, plant and equipment are as follows:

Asset class	Useful life
<b>Property, plant and equipment</b>	
Plant and machinery	7.5-25 years*
Buildings	10-60 years
Furniture and fixtures	10 years
Office equipment	5 years
Computer	3-6 years
Vehicles	8 years**
<b>Intangible assets</b>	
Technical know-how	10 years
Software	6 years

\* Furnaces, part of the glass plant of the Company, includes in plant and machinery, are depreciated over a life of 6.5 years which

is different from life prescribed in Schedule II of the Act, based on independent chartered engineer certificate.

\*\* Vehicles are being depreciated using written down value method as per life of 8 years mentioned in Schedule II of the Act.

## 3.16 Impairment of property, plant and equipment

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable and impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash generating units). If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost and the same is accordingly reversed in the statement of profit and loss.

## 3.17 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and demand deposits, together with other short-term, highly liquid investments maturing within 90 days from the date of acquisition. Cash and cash equivalent are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value.

## 3.18 Cash flow statement

Cash flows are reported using the indirect method, whereby profit/loss before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

## 3.19 Inventories

Inventories are stated at the lower of cost or net realisable value. The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Costs of inventories are determined on weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

# Significant Accounting Policies and Other Explanatory Information to the Standalone Financial Statements

for the year ended 31 March 2018

## 3.20 Provisions and contingencies

A provision is recognised in the standalone financial statements where there exists a present obligation as a result of a past event, the amount of which can be reliably estimated, and it is probable that an outflow of resources would be necessitated in order to settle the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised but are disclosed in the notes unless the outflow of resources is considered to be remote. Contingent assets are neither recognised nor disclosed in the standalone financial statements.

## 3.21 Equity, reserves and dividend payments

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Retained earnings include current and prior period retained profits. All transactions with owners of the Company are recorded separately within equity.

Dividend distribution payable to equity shareholders are included in other liabilities when the dividends have been approved in a general meeting prior to the reporting date.

## 3.22 Earnings per share

Basic earnings or loss per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings or loss per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

## 3.23 Fair value measurement

The Company measures financial instruments such as investments in mutual funds, investment in certain equity shares etc. at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

## 3.24 Financial instruments

### I. Financial assets

#### a. Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset, which are not at fair value through profit and loss, are added to fair value on initial recognition. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit and loss.

#### b. Subsequent measurement

##### (i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give

# Significant Accounting Policies and Other Explanatory Information to the Standalone Financial Statements

for the year ended 31 March 2018

rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**(ii) Financial assets at fair value through other comprehensive income (FVOCI)**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**(iii) Financial assets at fair value through profit or loss (FVTPL)**

A financial asset which is not classified in any of the above categories are subsequently fair valued through statement of profit and loss.

**c. Impairment of financial assets**

The Company assesses on a forward looking basis the expected credit losses (ECL) associated with its assets measured at amortised cost and assets measured at fair value through other comprehensive income. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 42 details how the Company determines whether there has been a significant increase in credit risk.

**d. Derecognition of financial assets**

A financial asset is derecognised when:

- The Company has transferred the right to receive cash flows from the financial assets or
- Retains the contractual rights to receive the cash flows of the financial assets, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity transfers the financial asset, it evaluates the extent to which it retains the risk and rewards of the ownership of the financial assets. If the entity transfers substantially all the risks and rewards of ownership of the financial asset, the entity shall derecognise the financial asset and recognise separately as assets or liabilities any rights and obligations created or retained in the transfer. If the entity retains substantially all the risks and

rewards of ownership of the financial asset, the entity shall continue to recognise the financial asset.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of the ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial assets. Where the Company retains control of the financial assets, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

## II. Financial liabilities

**a. Initial recognition and subsequent measurement**

All financial liabilities are recognized initially at fair value and in case of borrowings and payables, net of directly attributable cost.

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments. Changes in the amortised value of liability are recorded as finance cost.

## III. Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices. All methods of assessing fair value result in general approximation of value, and such value may vary from actual realization on future date.

## IV. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

### 3.25 Derivative financial instruments

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts,

# Significant Accounting Policies and Other Explanatory Information to the Standalone Financial Statements

for the year ended 31 March 2018

interest rate swaps and cross currency swaps. Further details of derivative financial instruments are disclosed in Note 43.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in statement of profit and loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in the statement of profit and loss depends on the nature of the hedging relationship and the nature of the hedged item.

## 3.26 Significant accounting judgements, estimates and assumptions

The preparation of the Company's standalone financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

### Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

#### (i) Estimation of defined benefit obligation

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities

involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

#### (ii) Estimation of current tax and deferred tax

Management judgment is required for the calculation of provision for income - taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to adjustment to the amounts reported in the standalone financial statements.

#### (iii) Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technological obsolescence that may change the utility of certain property, plant and equipment.

#### (iv) Impairment of trade receivables

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not to be collectible. Impairment is recognised based on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

#### (v) Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date (refer note 43).

## NOTE 5 - GOODWILL

(₹ in lakh)

Particulars	As at 31 March 2018	As at 31 March 2017
Gross carrying value	2,694.22	2,694.22

### Reconciliation of the carrying amount of goodwill at the beginning and end of the reporting period

(₹ in lakh)

Goodwill	
<b>Balance as at 1 April 2016</b>	<b>2,694.22</b>
Accumulated impairment	-
<b>Balance as at 31 March 2017</b>	<b>2,694.22</b>
Accumulated impairment	-
<b>Balance as at 31 March 2018</b>	<b>2,694.22</b>

### Allocation of goodwill to cash generating units:

For the purpose of impairment testing, goodwill is allocated to the Garden Polymers division which represents the lowest level within the Company at which the goodwill is monitored for internal management purposes, which is not higher than the Company's operating segments.

The Company tests goodwill annually for impairment, or more frequently if there are indications that goodwill might be impaired.

The recoverable amounts of the cash generating units ("CGU") is determined from value in use calculation. The key assumptions for the value in use calculations are those regarding the discount rates, growth rates and expected changes to selling prices and direct costs during the period. These assumptions have been determined in light of the economic environment which has resulted in more conservative estimates about the future. Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGU. (A reduction in the availability of credit has led to an increase in the cost of capital and therefore, the discount rate applied to future cash flows has increased.) Changes in selling prices and direct costs are based on past practices and expectations of future changes in the market. It is anticipated that sales volumes will remain at a similar level to the current year taking into account the market conditions.

The Company has conducted a sensitivity analysis on the impairment test of CGU carrying value. Change in the discount rate and growth rate by +/- 1% points would not impact in carrying value of goodwill (with other factors remains constant).

Value in use has been determined by discounting the future cash flows generated from the continuing use of the unit. Unless indicated otherwise, value in use in 2017-18 has been determined similarly as in 2016-17. The calculation of the value in use is based on the following key assumptions:

Particulars	As at 31 March 2018	As at 31 March 2017
Discount rate	15%	10%
Terminal value of growth rate	3%	2%

### Nature and purpose of other reserves:

- Capital reserve was created on amalgamation of certain entities/undertaking into the Company.
- Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Act.
- Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paidup capital of the Company for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net

## NOTE 42 - FINANCIAL INSTRUMENTS AND RISK REVIEW

### Capital management

The Company manages its capital to be able to continue as a going concern while maximising the returns to shareholders through optimisation of the debt and equity balance. The capital structure consists of debt which includes the borrowings as disclosed in note 22 and 27; cash and cash equivalents as disclosed in note 15 and current investment and equity attributable to equity holders of the Company, comprising issued share capital, reserves and retained earnings as disclosed in the Statement of changes in equity. For the purpose of calculating gearing ratio, debt is defined as non current and current borrowings (excluding derivatives). Equity includes all capital and reserves attributable to equity holders of the Company. The Company is not subject to externally imposed capital requirements. The Board reviews the capital structure and cost of capital on an annual basis but has not set specific targets for gearing ratios. The risks associated with each class of capital are also considered as part of the risk reviews presented to the Audit Committee and the Board of Directors.

The following table summarises the capital of the Company

### Financial risk management objective

The Company is exposed to various risks in relation to financial instruments. The main types of risks are market risk, credit risk and liquidity risk. The Company is not engaged in speculative treasury activities but seeks to manage risk and optimise interest and commodity pricing through proven financial instruments.

The use of any derivative is approved by the management, which provide guidelines on the acceptable levels of interest rate risk, credit risk, foreign exchange risk and liquidity risk and the range of hedging requirement against these risks.

### Credit risk:

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to financial loss. The Company is exposed to credit risk for receivables, cash and cash

equivalents, short term investments, financial guarantee and derivative financial instruments.

### Cash and cash equivalents and short term investments

The Company considers factors such as track record, size of institution, market reputation and service standard to select the banks with which deposits are maintained. Generally the balances are maintained with the institutions with which the Company has also availed borrowings. The Company does not maintain significant deposit balances other than those required for its day to day operations.

### Trade receivables

The Company extends credits to customer in normal course of the business. The Company considers the factors such as credit track record in the market of each customer and past dealings for extension of credit to the

customer. The Company monitors the payment track record of each customer and outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located at several jurisdiction and industries and operate in large independent markets. The Company also takes advances and security deposits from customers which mitigate the credit risk to an extent.

The average credit period taken on sales of goods is 30 to 60 days. Generally, no interest has been charged on the receivables. Allowances against doubtful debts are recognised against trade receivables based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty and an analysis of the counterparty's current financial position. Before accepting any new customer, the Company uses an internal credit system to assess the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed periodically. There are no customers who represent more than 5 per cent of total net revenue from operations. The Company does not hold any collateral or other credit

enhancements over any of its trade receivables nor does it have a legal right of offset against any amounts owed by the Company to the counterparty.

### Expected credit loss :

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

Ageing	Expected credit loss (%)
Not due for payment	0
Up to 6 months	0
From 6 months to 1 year	0
From 1 year to 3 years	10 to 100

## NOTE 42 - FINANCIAL INSTRUMENTS AND RISK REVIEW (CONTD.)

### Liquidity risk:

Liquidity risk reflects the risk that the Company will have insufficient resources to meet its financial liabilities as they fall due.

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on a mix of borrowings, capital infusion and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure that it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities so that it does not breach borrowing limits.

The table below provides undiscounted cash flows towards non-derivative financial liabilities into relevant maturity based on the remaining period at the balance sheet date to the contractual maturity date and, where applicable, their effective interest rates.

### Market risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Company enters into a variety of derivative financial instruments to manage its exposure to foreign currency risk, including :

Forward foreign exchange contract to hedge the exchange rate risk arising on the export of its products.

Forward foreign exchange contract to hedge the exchange rate risk arising on translation of the foreign currency loans.

### Currency risk

The Company undertakes various transactions denominated in foreign currencies, consequently, exposure to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

### NOTE 42 - FINANCIAL INSTRUMENTS AND RISK REVIEW (CONTD.)

The Company transacts business primarily in Indian Rupee, USD, Euro and GBP. The Company has obtained foreign currency loans and has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk. Certain transactions of the Company act as a natural hedge as a portion of both assets and liabilities are denominated in similar foreign currencies. For the remaining exposure to foreign exchange risk, the Company adopted a policy of selective hedging based on risk perception of the management. Foreign exchange hedging contracts are carried at fair value.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

### Sensitivity analysis

The following table demonstrates the sensitivity of profit and equity in USD, Euro and GBP to the Indian Rupee with all other variables held constant. The impact on the Company's profit before tax and other comprehensive income due to changes in the fair value of monetary assets and liabilities is given below:

(₹ in lakh)

For the year ended 31 March 2018	Change in currency exchange rate	Effect on profit before tax 31 March 2018	Effect on profit before tax 31 March 2017
USD	5%	(1,317.94)	(1,522.48)
	-5%	1,317.94	1,522.48
EUR	5%	(9.21)	(4.85)
	-5%	9.21	4.85
GBP	5%	(1.39)	(1.46)
	-5%	1.39	1.46

This is mainly attributable to the exposure outstanding on foreign currency receivables and payables in the Company at the end of each reporting period.

### Interest rate risk

The Company's exposure to the risk of changes in market interest rates relates primarily to long term debts. Its objective in managing its interest rate risk is to ensure that it always maintain sufficient head room to cover interest payment from anticipated cash flows which is regularly reviewed by the board/nominated committee as well.

The following table demonstrates the sensitivity in the interest rate with all other variables held constant. The impact on the Company's profit before tax and other comprehensive income due to changes in the interest rates is given below :

(₹ in lakh)

### A. Defined contribution plan

The Company operates defined contribution retirement benefit plans for all employees. The assets of the plans are held separately from those of the Companies in funds under the control of trustees. Where employees leave the plans prior to full vesting of the contributions, the contributions payable by the Company are reduced by the amount of forfeited contributions.

The Company's contribution to Provident Fund and Superannuation Fund aggregating to ₹ 917.84 lakh

(net of amount capitalised and reimbursement received from government) (previous year ₹ 886.05 lakh) has been recognised in the Statement of Profit and Loss under the head Employee Benefits Expense.

### B. Defined benefit plans

#### Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Birla Sun Life Insurance Company Limited.

### Sensitivity analysis

(₹ in lakh)

Particulars	As at 31 March 2018		As at 31 March 2017	
	Change in assumption	Effect on gratuity obligation	Change in assumption	Effect on gratuity obligation
	Discount rate	0.50%	(99.75)	0.50%
	-0.50%	108.33	-0.50%	99.30
Expected rate of increase in compensation level	0.50%	105.69	0.50%	89.09
	-0.50%	(98.48)	-0.50%	(95.06)

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (projected unit credit method) has been applied as when calculating the defined benefit obligation recognised within the balance sheet.

### VI. Experience adjustments :

Particulars	Year ended				
	2017-18	2016-17	2015-16	2014-15	2013-14
1. Defined benefit obligation	2,157.84	1,968.57	1,796.49	1,623.84	1,355.55
2. Fair value of plan assets	2,032.75	1,889.66	1,625.38	1,563.54	1,346.76
3. Surplus/(deficit)	(125.09)	(78.91)	(171.11)	(60.30)	(8.79)
4. Experience adjustment on plan liabilities gain/(loss)	104.39	(36.17)	(46.99)	(209.17)	(9.65)
5. Experience adjustment on plan assets gain/(loss)	7.65	117.30	(77.36)	129.49	0.73

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

# Independent Auditor's Report

To The Members of  
**HSIL Limited**

## REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

We have audited the accompanying consolidated financial statements of HSIL Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), comprising of the Consolidated Balance Sheet as at 31st March 2018, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity, the Statement of Consolidated Cash Flow for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

## MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements

that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

## AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

## OPINION

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated financial position of the Group as at 31st March 2018, and their consolidated financial performance (including other comprehensive income), the consolidated statement of change in equity and their consolidated cash flows for the year ended on that date.

# Annexure – A to the Auditors' Report

## Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2018, we have audited the internal financial controls over financial reporting of HSIL Limited ('the Holding Company') and its subsidiary companies, which are companies incorporated in India, as of that date.

### Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ('the Act').

### Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial

controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Holding company and its subsidiary companies which are incorporated in India have maintained, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India

**Other Matters**

i) Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness

of the internal financial controls over financial reporting insofar as it relates to one subsidiary, which is a company incorporated in India, is based on the corresponding reports of the audit of such company.

## 2. CONSOLIDATION

### 2.1 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Parent company and its subsidiaries. Control is gained when the Parent Company:

- Has power over the investee
- Is exposed or has rights to variable return from its involvement with the investee, and
- Has the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Parent Company has less than a majority of the voting or similar rights of an investee, the Parent Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Parent Company's voting rights and potential voting rights
- The size of the Parent Company's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Assets, liabilities, income and expenses of a

for the year ended 31 March 2018

subsidiary acquired or disposed off during the year are included in the consolidated financial statements from the date the Parent Company gains control until the date the Parent Company ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Parent Company, i.e., year ended on 31 March.

Consolidation procedure:

- a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- b) Offset (eliminate) the carrying amount of the Parent's investment in each subsidiary and the Parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses

and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

## 2.2 Statement of compliance with Indian Accounting Standards (Ind AS)

The consolidated financial statements of the Group have been prepared in accordance with Ind AS notified by the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. Accordingly, the Group's financial statements for the year ended 31 March 2018 are prepared complying applicable Ind AS.

The consolidated financial statements of the Group as at and for the year ended 31 March 2018 (including comparatives) were approved and authorised for issue by the Board of Directors on 30 May 2018.

## 3. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION

Significant accounting policies of the financial statement of the company and its subsidiaries are set out in their respective standalone financial statement. The significant accounting policies to prepare consolidated financial statements are in uniformity with the standalone financial statements of the company. Following are the additional policies specifically considered for preparation of consolidated financial statement.

### 3.1 Business combinations

Business combinations are accounted for using the acquisition method. At the acquisition date, identifiable assets acquired and liabilities assumed are measured at fair value. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition date fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. The consideration transferred is measured at fair value at acquisition date and includes the fair value of any contingent consideration. However, deferred tax asset or liability and any liability or asset relating to employee benefit arrangements arising from a business combination are measured and recognized in accordance with the requirements of Ind AS 12, 'Income Taxes' and Ind AS 19, 'Employee Benefits', respectively. Where the consideration transferred exceeds the fair value of the net identifiable assets acquired and liabilities assumed, the excess is recorded as goodwill. Alternatively, in case of a bargain purchase wherein the consideration transferred is lower than the fair value of the net identifiable assets acquired and liabilities assumed,

for the year ended 31 March 2018

the difference is recorded as a gain in other comprehensive income and accumulated in equity as capital reserve. The costs of acquisition excluding those relating to issue of equity or debt securities are charged to the Statement of Profit and Loss in the period in which they are incurred.

## 3.2 Goodwill

Goodwill represents the future economic benefits arising from a business combination that are not individually identified and separately recognised. Goodwill is carried at cost less accumulated impairment losses.

## 3.3 Foreign currency transactions and translations

### Initial recognition

The Group's consolidated financial statements are presented in INR, which is also the Group's functional currency. Transactions in foreign currencies are recorded on initial recognition in the functional currency at the exchange rates prevailing on the date of the transaction.

### Measurement at the balance sheet date

Foreign currency monetary items of the Group, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

### Treatment of exchange difference

Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Group's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

## 3.4 Taxation

### Deferred tax

Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss or deductible temporary difference will be utilised

against future taxable income. This is assessed based on the Parent Company's/its subsidiary's forecast of future opening results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit.

Deferred tax liabilities are generally recognised in full, although Ind AS 12, Income Taxes, specifies limited exemptions.

Changes in deferred tax assets or liabilities are recognised as a component of tax income or expense in the statement of profit or loss, except where they relate to items that are recognised in other comprehensive income (such as the revaluation of land) or directly in equity, in which case the related deferred tax is also recognised in other comprehensive income or equity, respectively.

## 3.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group has four operating/reportable segments: building products, packaging products, consumer products and retail business segments. In identifying these operating segments, management generally follows the Group's service lines representing its main products and services.

Each of these operating segments is managed separately as each requires different technologies, marketing approaches and other resources. All inter-segment transfers are carried out at arm's length prices based on prices charged to unrelated customers in standalone sales of identical goods or services.

For management purposes, the Group uses the same measurement policies as those used in its financial statements. In addition, unallocated assets which are not directly attributable to the business activities of any operating segment are not allocated to a segment.

Accumulated impairment	-
<b>Balance as at 31 March 2018</b>	<b>2,694.22</b>

### Allocation of goodwill to cash generating units:

For the purpose of impairment testing, goodwill is allocated to the Garden Polymers division which represents the lowest level within the Group at which the goodwill is monitored for internal management purposes, which is not higher than the Parent Company's operating segments.

The Parent Company tests goodwill annually for impairment, or more frequently if there are indications that goodwill might be impaired.

The recoverable amounts of the cash generating units ("CGU") is determined from value in use calculation. The key assumptions for the value in use calculations are those regarding the discount rates, growth rates and expected changes to selling prices and direct costs during the period. These assumptions have been determined in light of the economic environment which has resulted in more conservative estimates about the future. Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGU. (A reduction in the availability of credit has led to an increase in the cost of capital and therefore, the discount rate applied to future cash flows has increased.) Changes in selling prices and direct costs are based on past practices and expectations of future changes in the market. It is anticipated that sales volumes will remain at a similar level to the current year taking into account the market conditions.

The Parent Company has conducted a sensitivity analysis on the impairment test of CGU carrying value. Change in the discount rate and growth rate by +/- 1% points would not impact in carrying value of goodwill (with other factors remains constant).

Value in use has been determined by discounting the future cash flows generated from the continuing use of the unit. Unless indicated otherwise, value in use in 2017-18 has been determined similarly as in 2016-17. The calculation of the value in use is based on the following key assumptions:

Particulars	As at 31 March 2018	As at 31 March 2017
Discount rate	15%	10%
Terminal value of growth rate	3%	2%

### Nature and purpose of other reserves:

- Capital reserve was created on amalgamation of certain entities/undertaking into the Parent Company.
- Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Act.
- Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paidup capital of the Parent Company for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. It, inter alia, includes a sum of ₹10,000 lakh transferred from Business Reconstruction Reserve which cannot be used for issuance of bonus shares and distribution of dividend.
- Capital redemption reserve is created against redemption of preference shares of the Parent Company.

## Significant Accounting Policies and Other Explanatory Information to the Consolidated Financial Statements

for the year ended 31 March 2018

- Business reconstruction reserve was created in accordance with a scheme of arrangement approved by the Hon'ble High Court of Calcutta. This reserve can neither be utilised towards issuance of bonus shares nor towards distribution of dividend.
- FVOCI equity instruments: The Parent Company has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within FVOCI equity investments reserve within equity. The Parent Company transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.
- Dividends paid (including dividend distribution tax) during the year ended 31 March 2018 of ₹3,480.57 lakh (₹4 per equity share of ₹2/- each ) were approved for payment.

## NOTE 42 - FINANCIAL INSTRUMENTS AND RISK REVIEW

### Capital management

The Group manages its capital to be able to continue as a going concern while maximising the returns to shareholders through optimisation of the debt and equity balance. The capital structure consists of debt which includes the borrowings as disclosed in note 22 and 27; current investments and cash and cash equivalents as disclosed in note 13 and 15 respectively and equity attributable to equity holders of the Parent Company, comprising issued share capital, reserves and retained earnings as disclosed in the Statement of changes in equity. For the purpose of calculating gearing ratio, debt is defined as non current and current borrowings (excluding derivatives). Equity includes all capital and reserves of the Group attributable to equity holders of the Parent Company. The Parent Company is not subject to externally imposed capital requirements. The Board of the Parent Company reviews the capital structure and cost of capital on an annual basis but has not set specific targets for gearing ratios. The risks associated with each class of capital are also considered as part of the risk reviews presented to the Audit Committee and the Board of the Parent Company's Directors.

### Financial risk management objective

The Group is exposed to various risks in relation to financial instruments. The main types of risks are market risk, credit risk and liquidity risk. The Group is not engaged in speculative treasury activities but seeks to manage risk and optimise interest and commodity pricing through proven financial instruments.

The use of any derivative is approved by the management, which provide guidelines on the acceptable levels of interest rate risk, credit risk, foreign exchange risk and liquidity risk and the range of hedging requirement against these risks.

### Credit risk:

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to financial loss. The Group is exposed to credit risk for receivables, cash and cash equivalents, short term investments, financial guarantee and derivative financial instruments.

### Cash and cash equivalents and short term investments

The Group considers factors such as track record, size of institution, market reputation and service standard to select the banks with which deposits are maintained. Generally the balances are maintained with the institutions with which the Group has also availed borrowings. The Group does not maintain significant deposit balances other than those required for its day to day operations.

### Trade receivables

The Group extends credits to customer in normal course of the business. The Group considers the factors such as credit track record in the market of each customer and past dealings for extension of credit to the customer. The Group monitors the payment track record of each customer and outstanding customer receivables are regularly monitored. The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located at several jurisdiction and industries and operate in large independent markets.

The Group also takes advances and security deposits from customers which mitigate the credit risk to an extent.

The average credit period taken on sales of goods is 30 to 60 days. Generally, no interest has been charged on the receivables. Allowances against doubtful debts are recognised against trade receivables based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty and an analysis of the counterparty's current financial position. Before accepting any new customer, the Group uses an internal credit system to assess the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed periodically. There are no customers who represent more than 5 per cent of total net revenue from operations. The Group does not hold any collateral or other credit enhancements over any of its trade receivables nor does it have a legal right of offset against any amounts owed by the Group to the counterparty.

### Expected credit loss:

The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. The provision matrix at the end of the reporting period is as follows:

Ageing	Expected credit loss (%)
Not due for payment	0
Up to 6 months	0
From 6 months to 1 year	0
From 1 year to 3 years	10 to 100
More than 3 years	100

### Liquidity risk:

Liquidity risk reflects the risk that the Group will have insufficient resources to meet its financial liabilities as they fall due. The Group's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group relies on a mix of borrowings, capital infusion and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium term expansion needs. The Group monitors rolling forecasts of its liquidity requirements to ensure that it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities so that it does not breach borrowing limits.

The table below provides undiscounted cash flows towards non-derivative financial liabilities into relevant maturity based on the remaining period at the balance sheet date to the contractual maturity date and, where applicable, their effective interest rates.

## NOTE 42 - FINANCIAL INSTRUMENTS AND RISK REVIEW (CONTD.)

### Market risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Group enters into a variety of derivative financial instruments to manage its exposure to foreign currency risk, including:

Forward foreign exchange contract to hedge the exchange rate risk arising on the export of its products.

Forward foreign exchange contract to hedge the exchange rate risk arising on translation of the foreign currency loans.

### Currency risk

The Group undertakes various transactions denominated in foreign currencies, consequently, exposure to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

The Group transacts business primarily in Indian Rupee, USD, Euro and GBP. The Group has obtained foreign currency loans and has foreign currency trade payables and receivables and is therefore, exposed to foreign exchange risk. Certain transactions of the Group act as a natural hedge as a portion of both assets and liabilities are denominated in similar foreign currencies. For the remaining exposure to foreign exchange risk, the Group adopted a policy of selective hedging based on risk perception of the management. Foreign exchange hedging contracts are carried at fair value.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Particulars	Currency	(in lakh)	
		As at 31 March 2018	As at 31 March 2017
Trade receivables	USD	29.22	24.87
Trade payables	USD	29.14	20.64

### Sensitivity analysis

The following table demonstrates the sensitivity of profit and equity in USD, Euro and GBP to the Indian Rupee with all other variables held constant. The impact on the Group's profit before tax and other comprehensive income due to changes in the fair value of monetary assets and liabilities is given below:

(₹ in lakh)

For the year ended 31 March 2018	Change in currency exchange rate	Effect on profit before tax	Effect on profit before tax
		31 March 2018	31 March 2017
USD	5%	(1,317.94)	(1,522.48)
	-5%	1,317.94	1,522.48
EUR	5%	(9.21)	(4.85)
	-5%	9.21	4.85
GBP	5%	(1.39)	(1.46)
	-5%	1.39	1.46

This is mainly attributable to the exposure outstanding on foreign currency receivables and payables in the Group at the end of each reporting period.

### Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to long term debts. Its objective in managing its interest rate risk is to ensure that it always maintain sufficient head room to cover interest payment from anticipated cash flows which is regularly reviewed by the board/nominated committee as well.

The following table demonstrates the sensitivity in the interest rate with all other variables held constant. The impact on the Group's profit before tax and other comprehensive income due to changes in the interest rates is given below:

(₹ in lakh)

For the year ended 31 March 2018	Change in interest rate	Effect on profit before tax	Effect on profit before tax
		31 March 2018	31 March 2017
Long-term borrowings	0.50%	(281.47)	(133.89)
	-0.50%	281.47	133.89

### Commodity risk

The Group is exposed to the movement in the price of key raw material and other traded goods in the domestic and international markets. The Group has in place policies to manage exposure to fluctuation the prices of key raw materials used in operations. The Group enter into contracts for procurement of raw material and traded goods, most of the transactions are short term fixed price contract and a few transactions are long term fixed price contracts.

## NOTE 44 - EMPLOYEE BENEFITS

### A. Defined contribution plan

The Group operates defined contribution retirement benefit plans for all employees. The assets of the plans are held separately from those of the Companies in funds under the control of trustees. Where employees leave the plans prior to full vesting of the contributions, the contributions payable by the Group are reduced by the amount of forfeited contributions.

The Group's contribution to Provident Fund and Superannuation Fund aggregating to ₹918.34 lakh (net of amount capitalised and reimbursement received from government) (previous year ₹951.40 lakh) has been recognised in the Statement of Profit and Loss under the head Employee Benefits Expense.

### B. Defined benefit plans

#### Gratuity

The Group operates a gratuity plan covering qualifying employees. The benefit payable is greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Group scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Parent Company makes annual contribution to the group gratuity scheme administered by the Birla Sun Life Insurance Company Limited.

#### STATEMENT IN RESPECT OF SPECIAL BUSINESS PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

##### Item No. 4

The Company by a Special Resolution passed by the Members of the Company at its 53rd Annual General Meeting held on Monday, the 30 September 2013, was authorized to make payments to its Directors (other than the Managing and Whole-time Directors of the Company) of a Commission of 1% (One percent) of the net profits of the Company for each of the Financial Year for a period of Five (5) years commencing from the 1 April 2013 and ending on the 31 March 2018.

The said resolution has expired by efflux of time and accordingly in terms of Sections 197, 198, Schedule V and other applicable provisions of the Companies Act, 2013, it is proposed to pass a fresh resolution by way of Special Resolution for the purpose of continuity of payment of such commission to Non-executive Directors for each Financial Year for further period of Five (5) years commencing from 1 April 2018 to 31 March 2023.

The resolution set out under item no. 4 of the accompanying Notice is intended for seeking member's approval and the Board of Directors accordingly recommend the same.

All the Directors are interested in the said resolution either directly or indirectly. None of the Key Managerial Personnel or their relatives, except to the extent of their shareholding in the Company, are interested in this resolution.

#### Item No. 5

Members of the Company by way of a Special Resolution passed through Postal Ballot on 6 July 2016, had accorded its consent to the Board of Directors to borrow funds to the extent of ₹2,000 Crore in excess of the paid up capital and free reserves of the Company.

In view of Company's consistent requirements for financing the capital expenditure on expansion and modernization programs and partly to augment the long term capital requirements for Company's growing activities and operations, it is necessary to raise the existing borrowing limit of ₹2,000 Crore to ₹ 3,000 Crore.

Thus, pursuant to provisions of Section 180 of the Companies Act, 2013 consent of the members is required by way of a Special Resolution for said enhancement in borrowing limit of the Company.

None of the Directors or Key Managerial Personnel or their relatives, except to the extent of their shareholdings, are interested in this resolution.

The Board recommends the Special Resolution set out under item no.5 of the accompanying Notice for approval by the members.

#### Item No. 6

The Securities and Exchange Board of India (SEBI) on 9 May 2018 notified SEBI (Listing Obligations and Disclosure Requirements) (Amendment) Regulations, 2018 (Amended Listing Regulations) and amended the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Pursuant to Regulation 17(1A)

of the Amended Listing Regulations, effective from 1 April 2019, a listed entity shall not appoint any person or continue the directorship of any person as a Non-executive Director who has attained the age of seventy five years unless a special resolution is passed in this regard.

The Company in its Annual General Meeting held on 27 September 2014 had appointed Mr. Vijay Kumar Bhandari as Non-executive and Independent Director for a period of 5 years with effect from 27 September 2014. His tenure as an Independent Director will expire by efflux of time at the Annual General Meeting to be held in the financial year 2018-19.

Mr. Vijay Kumar Bhandari, aged 74 years, is a B.Com. (Hons.) and Chartered Accountant having vast experience in Banking Industry in various capacities at various offices of Central Bank of India for over 31 years. Mr. Bhandari will turn 75 years in the month of October 2018.

Mr. Vijay Kumar Bhandari serves as Chairman of Audit Committee and is also member of Nomination and Remuneration Committee and Stakeholder Relationship (Shareholders/Investor Grievance) Committee of the Company. Being the Chairman of the Audit Committee, he has guided the Company on various financial aspects and has contributed effectively towards streamlining the functioning of the Audit Committee keeping in view the enhanced roles and responsibilities of the Audit Committee under various statutes. He has also contributed significantly as a member of the other committees mentioned above.

The Board considers that his association would be of immense benefit to the Company and it is desirable to continue to avail the services of Mr. Vijay Kumar Bhandari as an Independent Director.

The Board recommends the Special Resolution set out under item no.6 of the accompanying Notice for approval by the members.

Except for Mr. Vijay Kumar Bhandari, none of the Directors, Key Managerial Personnel (KMP) or their relatives except to the extent of their shareholdings, are interested in this resolution set out at item no 6 of the accompanying Notice.

Information pursuant to Regulation 36 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 regarding Directors seeking appointment / re-appointment
