VI. APPROACH - BASIS FOR PROPOSED DEMERGER

The Proposed Scheme contemplates the proposed demerger of the Undertakings pursuant to the Composite Scheme of Arrangement under the relevant provisions of the Act. Arriving at the Fair Share Entitlement Ratio for the Proposed Demerger would require determining the relative values of the concerned businesses and shares of the companies. These values are to be determined independently but on a relative basis, and without considering the effect of the Proposed Demerger.

The Proposed Demerger envisages the demerger of the Demerged Undertaking 1 into Resulting Company 1 and Demerged Undertaking 2 into Resulting Company 2 respectively, with equity shares of Resulting Company 1, being issued to the shareholders of HSIL for transfer of the Demerged Undertakings. This requires the relative valuation of the relevant Businesses of Demerged Undertaking

Corp office: G-9, H-3, Vardhman Plaza Tower, Netaji Subhash Place, Pitampura, New Delhi 110034; Phone no. 011-47243749

1, Demerged Undertaking 2 and Remaining Undertaking of HSIL for determination of a Fair Share Entitlement Ratio for the Proposed Demerger.

There are several commonly used and accepted methods for determining the Fair Share Entitlement Ratio for the Proposed Demerger, which have been considered in the present case, to the extent relevant and applicable, including:

1. Net Asset Value method
2. Comparable Companies' Multiples method / Earnings Capitalisation Value method
3. Market Price method
4. Discounted Cash Flows method

It should be understood that the valuation of any company or its assets is inherently subjective and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of the companies. In addition, this valuation will fluctuate with changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of the companies, and other factors which generally influence the valuation of companies and their assets.

The application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona fide manner based on our previous experience of assignments of a similar nature.

Net Asset Value (NAV) Method

The asset based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. The Net Asset Value ignores the future return the assets can produce and is calculated using historical accounting data that does not reflect how much the business is worth to someone who may buy or invest in the business as a going concern. This valuation approach is therefore mainly used in case where the firm is to be liquidated or in case where the asset base dominates earnings capability. A scheme of demerger would normally be proceeded with, on the assumption that the companies / businesses demerge as going concerns and an actual realization of the operating assets is not contemplated. The operating assets are therefore considered at their book values. In such a going concern scenario, the relative earning power is of importance to the basis of demerger, with the values arrived at on the net asset basis being of limited relevance.

We have been provided with projected balance sheets of the Demerged Undertaking 1, Demerged Undertaking 2 and Remaining Undertaking of HSIL as at March 31 2018. We have computed the Net

Corp office: G-9, H-3, Vardhman Plaza Tower, Netaji Subhash Place, Pitampura, New Delhi 110034; Phone no: 011-47243749

Santosh K Singh & Co, Chartered Accountants

Asset Value of these businesses accordingly and for the reasons mentioned above, we have considered it appropriate only to keep the values under this method in the background for our analysis.

Comparable Companies' Multiple (CCM) / Earnings Capitalisation Value Method (ECV)

Under the CCM / ECV method, value of the equity shares of a company is arrived at by using multiples / capitalization rates derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples / capitalization rates need to be chosen carefully and adjusted for differences between the circumstances.

We have performed a search for suitable comparable companies for the Undertakings to derive an appropriate capitalization rate / multiple. In case of Demerged Undertaking 1 and Demerged Undertaking 2, there are no listed closely comparable companies which are primarily engaged in the similar businesses though there are listed comparable which have divisions engaged in the similar businesses and their combined earning multiple cannot be applied to the business earning of Demerged Undertaking 1 and Demerged Undertaking 2. In the circumstances, we have considered it appropriate not to apply this method in the present exercise.

Market Price Method

The market price of an equity share as quoted on a stock exchange is normally considered as the value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper index of the fair value of the share especially where the market values are fluctuating in a volatile capital market. Further, in the case of a merger, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard. This method would also cover any other transactions in the shares of the company including primary / preferential issues / open offer in the shares of the company as envisaged in the overall scheme of arrangement and reported to the stock exchanges / available in the public domain.

In the present case, the shares of HSIL are listed on NSE and BSE and well traded on these stock exchanges, however, the valuation of the Demerged undertaking 1, Demerged Undertaking 2 and Remaining Undertaking cannot be calculated using the same market price and doing the split of the same on certain parameters as the different business segments have their different risk and rewards. We have computed the market value of HSIL and for the reasons mentioned above, we have considered it appropriate only to keep the value under this method in the background for our analysis.

Discounted Cash Flows (DCF) Method

Santosh K Singh & Co, Chartered Accountants

The DCF method uses the future free cash flows of the firm discounted by the cost of capital to arrive at the present value. In general, the DCF method is a strong and widely accepted valuation tool, as it concentrates on cash generation potential of a business. Considering that this method is based on future potential and is widely accepted, we have used this approach in the valuation in the present exercise.

Using the DCF analysis involves determining the following: Estimating future free cash flows:

- Free cash flows are the cash flows expected to be generated by the company that are available to all providers of the company's capital — both debt and equity.
- Appropriate discount rate to be applied to cash flows i.e. the cost of capital:

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and creditors), weighted by their relative contribution to the total capital of the company. The opportunity cost to the capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk.

To arrive at the total value available to the equity shareholders of HSIL, the values arrived above under DCF method are adjusted for, inter-alia, the value of loans, cash, surplus / non-operating assets/liabilities(if any) as deemed appropriate for the purpose of our valuation analysis.

VII BASIS OF PROPOSED SHARE ENTITLEMENT RATIO

The fair basis for the Proposed Demerger would have to be determined after taking into consideration all the factors and methodologies mentioned hereinabove. Though different values have been arrived at under each of the above methodologies, for the purposes of recommending a Share Entitlement Ratio, it is necessary to arrive at a single value for the shares of the concerned undertakings. It is however important to note that in doing so, we are not attempting to arrive at the absolute equity values of the shares of the Undertakings but at their relative values to facilitate the determination of the share entitlement ratio. For this purpose, it is necessary to give appropriate weights to the values arrived at under each methodology.

We have carried out a relative valuation of the equity values of the Undertakings and have given weights to the values arrived at under different methodologies, based on their evaluation and judgement of the businesses of the Undertakings, in order to arrive at the relative values of the Undertakings in order to arrive at the Fair Share Entitlement Ratio for the Proposed Demerger.

In the ultimate analysis, valuation will have to be arrived at by the exercise of judicious discretion by the valuers and judgments taking into account all the relevant factors. There will always be several factors, e.g. quality of the management, present and prospective competition, yield on comparable securities and market sentiment, etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of a business. This concept is also recognised in judicial decisions.

The Fair Share Entitlement Ratio has been arrived at on the basis of a relative valuation of Undertakings based on the various methodologies explained herein earlier and various qualitative factors relevant to each Undertaking and the business dynamics and growth potentials of the

Santosh K Singh & Co, Chartered Accountants

businesses of the Undertakings, having regard to information base, key underlying assumptions and limitations.

We have considered the following additional factors while arriving at the Share Entitlement Ratio for the proposed demerger of CPDM Undertaking & Retail Undertaking and BPDM Undertaking of HSIL into Resulting Company 1 and Resulting Company 2 respectively:

- A. Capital employed in the business;
- B. Equity servicing capacity, and
- C. Shareholders' profile and other relevant factors.

We are given to understand by the Management that the demerger of Demerged Undertaking 1 and Demerged Undertaking 2 will be as per requirement of the Section 2(19AA) of the Income tax Act, 1961. Accordingly, HSIL will transfer the assets and liabilities of Demerged undertaking 1 and Demerged Undertaking 2 to Resulting Company 1 and Resulting Company 2, respectively, at Book Value (as defined in the Proposed Scheme). Further, we understand that the shareholders of HSIL would be entitled to shares of Resulting Company 1 in the same proportion which they currently own shares directly in HSIL.

VIII. RECOMMENDED RATIO

It may be noted that any proposed share entitlement ratio for the Demerger can be considered as fair and reasonable, only if the proposed share entitlement ratio to be adopted does not result in any adverse consequence to the shareholders of HSIL.

Considering that ultimate shareholding of Demerged Undertaking 1 and Demerged Undertaking 2 would not change on account of the Proposed Scheme, the proposed Demerger of Demerged Undertaking 1 into Resulting Company 1 and demerger of Demerged Undertaking 2 into Resulting Company 2 would be value-neutral to ultimate shareholders of HSIL. Once the Scheme is implemented, all the equity shareholders of HSIL would be allotted equity shares of Resulting Company 1 besides their existing equity holding in HSIL. No shareholder is, under the Proposed Scheme, required to dispose-off any part of its shareholding either to any of the other shareholders or in the market or otherwise. The proposed demerger does not envisage the dilution of the effective holding of any one or more shareholders as a result of the operation of the Proposed Scheme.

In the light of the above, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, in our opinion, the Fair Share Entitlement Ratio for the Proposed Scheme is as follows:

"Fair Share Entitlement Ratio for the Proposed Demerger – 1 (one) Equity Share of Rs. 2 each of Resulting Company 1 to be issued against 1 (one) Equity Share of face value of Rs. 2 each of HSIL"

Dear Sir (s),

Re: Recommendation of Share Entitlement Ratio for the purpose of demerger of the Consumer Products Distribution and Marketing Undertaking (hereinafter referred to as "CPDM Undertaking") and the Retail Undertaking of HSIL Limited to Somany Home Innovation Limited, and Demerger of Building Products Distribution and Marketing Undertaking (hereinafter referred to as "BPDM Undertaking") of HSIL Limited to Brilloca Limited.

We refer to our Engagement Letter dated September 8, 2017 confirming our appointment to provide our recommendation on the Share Entitlement Ratio for the proposed demerger of

- CPDM Undertaking and Retail Undertaking (as more particularly defined in the Composite Scheme of Arrangement and hereinafter referred to as "**Demerged Undertaking 1**") from HSIL Limited (hereinafter referred to as "**HSIL**" or the "**Company**" or "**Demerged Company**") to Somany Home Innovation Limited (hereinafter referred to as "**Somany Home**" or "**Resulting Company 1**"), a wholly owned subsidiary of HSIL; and
- BPDM Undertaking (as more particularly defined in the Composite Scheme of Arrangement and hereinafter referred to as "**Demerged Undertaking 2**") from HSIL Limited to Brilloca Limited (hereinafter referred to as "**Resulting Company 2**"), a wholly owned subsidiary of Resulting Company 1,

pursuant to the Composite Scheme of Arrangement under the provisions of Sections 230 – 232 of the Companies Act 2013 (hereinafter referred to as "**Act**") read with Section 66 of the Act and other applicable provisions of the Act, as may be applicable (hereinafter referred to as "**Scheme**"), with effect from the Appointed Date, i.e., 1st April 2018 or such other date as may be fixed or approved by the National Company Law Tribunal (hereinafter referred to as "**NCLT**"). As per the terms of our engagement, we are enclosing our valuation report as under.

*(Demerged Company, Resulting Company 1 and Resulting Company 2 being hereinafter individually referred to as **Company** and collectively referred to as the **Companies**; and Demerged Undertaking 1, Demerged Undertaking 2 and Remaining Undertaking (as defined in the Scheme) being hereinafter individually referred to as **Undertaking** and collectively referred to as the **Undertakings**)*

It is further submitted that Paragraph 4(a) of Part I of Annexure I of SEBI Circular no. CFD/DIL3/CIR/2017/21, dated March 10, 2017 ("SEBI Circular") requires all listed companies to submit a valuation report from an independent chartered accountant. However, as per Paragraph 4(b) of Part I of Annexure I of the SEBI Circular, valuation report is not required to be submitted in cases where there is no change in the shareholding pattern of the listed entity or resultant companies.

The SEBI Circular further clarifies that a 'change in the shareholding pattern' shall mean:

- (i) change in the proportion of shareholding of any of the existing shareholders of the listed entity in the resultant company; or
- (ii) new shareholder being allotted equity shares of the resultant company; or
- (iii) existing shareholder exiting the company pursuant to the Scheme of Arrangement.

Further, the SEBI Circular contains the following example, illustrating 'no change in shareholding pattern':

In case a listed entity (say, "entity A") demerges a unit and makes it a separate company (say, "entity B"):

- (a) if the shareholding of entity B is comprised only of the shareholders of entity A; and
- (b) if the shareholding pattern of entity B is the same as in entity A; and
- (c) every shareholder in entity B holds equity shares in the same proportion as held in entity A before the demerger.

I. SCOPE AND PURPOSE OF THE REPORT

We understand that as a part of a business restructuring exercise, the Management of HSIL (hereinafter referred to as "**Management**") is considering

- demerger of CPDM Undertaking and Retail Undertaking of HSIL into its wholly owned subsidiary, Resulting Company 1, on a going concern basis through the Scheme;
- demerger of BPDM Undertaking of HSIL into Resulting Company 2 (a wholly owned subsidiary of Resulting Company 1), on a going concern basis through a Scheme;
- on the Scheme becoming effective, cancellation of the existing equity share capital of Resulting Company 1 which is held by HSIL; and

- on the Scheme becoming effective issuance of equity shares of Resulting Company 1 to the equity shareholders of HSIL, as consideration for the demerger of Demerged Undertaking 1 and Demerged Undertaking 2 into Resulting Company 1 and Resulting Company 2.

Therefore, the Management has requested Santosh K Singh & Co. Chartered Accountants ("SKS") to provide recommendation on the Share Entitlement Ratio for the proposed demerger of Demerged Undertaking 1 into Resulting Company 1 and Demerged Undertaking 2 into Resulting Company 2, on the coming into effect of the Scheme, with effect from the Appointed Date. In this connection, SKS has been requested by HSIL to submit a report recommending a Fair Share Entitlement Ratio in the connection with the Scheme, for the consideration of the Board of Directors of HSIL. This report will be placed before the Audit Committee of HSIL and the Board of Directors of HSIL. Further, it will be subsequently used for onward submission with the stock exchanges, regulatory authorities and NCLT, for the purpose of the Scheme.

We have considered projected financial statements and other information relating to the Companies upto March 31, 2018 (hereinafter referred to as "Valuation Date") in our analysis and adjustments for facts made known (past or future) to us till the date of our report. The Management has informed us that they do not expect any events or changes in the business and the financial position of the Companies upto the Appointed Date of the Proposed Demerger, other than the events specifically mentioned in this report, which would have an impact on our recommendation set out in this report.

We have relied on the above while arriving at the Fair Share Entitlement Ratio for the Scheme.

In the following paragraphs, we have summarized our recommendation on the Share Entitlement Ratio together with the limitations on our scope of work. This report is subject to the scope, assumptions, exclusions, limitations and disclaimers detailed hereinafter. As such, the report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to therein.

VI. APPROACH - BASIS FOR PROPOSED DEMERGER

The Scheme contemplates the proposed demerger of the Undertakings pursuant to the Composite Scheme of Arrangement under the relevant provisions of the Act. Arriving at the Fair Share Entitlement Ratio for the Proposed Demerger would require determining the relative values of the concerned businesses and shares of the companies. These values are to be determined independently but on a relative basis, and without considering the effect of the Proposed Demerger.

The Proposed Demerger envisages the demerger of the Demerged Undertaking 1 into Resulting Company 1 and Demerged Undertaking 2 into Resulting Company 2 respectively, with equity shares of Resulting Company 1, being issued to the shareholders of HSIL for transfer of the Demerged Undertakings. This requires the relative valuation of the relevant Businesses of Demerged Undertaking 1, Demerged Undertaking 2 and Remaining Undertaking of HSIL for determination of a Fair Share Entitlement Ratio for the Proposed Demerger.

There are several commonly used and accepted methods for determining the Fair Share Entitlement Ratio for the Proposed Demerger, which have been considered in the present case, to the extent relevant and applicable, including:

1. Net Asset Value method
2. Comparable Companies' Multiples method / Earnings Capitalisation Value method
3. Market Price method
4. Discounted Cash Flows method

It should be understood that the valuation of any company or its assets is inherently subjective and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of the companies. In addition, this valuation will fluctuate with changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of the companies, and other factors which generally influence the valuation of companies and their assets.

The application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona fide manner based on our previous experience of assignments of a similar nature.

Net Asset Value (NAV) Method

The asset based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. The Net Asset Value ignores the future return the assets can produce and is calculated using historical accounting data that does not reflect how much the business is worth to someone who may buy or invest in the business as a going concern. This valuation approach is therefore mainly used in case where the firm is to be liquidated or in case where the asset base dominates earnings capability. A scheme of demerger would normally be proceeded with, on the assumption that the companies / businesses demerge as going concerns and an actual realization of the operating assets is not contemplated. The operating assets are therefore considered at their book values. In such a going concern scenario, the relative earning power is of importance to the basis of demerger, with the values arrived at on the net asset basis being of limited relevance.

We have been provided with projected balance sheets of the Demerged Undertaking 1, Demerged Undertaking 2 and Remaining Undertaking of HSIL as at March 31 2018. We have computed the Net Asset Value of these businesses accordingly and for the reasons mentioned above, we have considered it appropriate only to keep the values under this method in the background for our analysis.

Comparable Companies' Multiple (CCM) / Earnings Capitalisation Value Method (ECV)

Under the CCM / ECV method, value of the equity shares of a company is arrived at by using multiples / capitalization rates derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples / capitalization rates need to be chosen carefully and adjusted for differences between the circumstances.

We have performed a search for suitable comparable companies for the Undertakings to derive an appropriate capitalization rate / multiple. In case of Demerged Undertaking 1 and Demerged Undertaking 2, there are no listed closely comparable companies which are primarily engaged in the similar businesses though there are listed comparable which have divisions engaged in the similar businesses and their combined earning multiple cannot be applied to the business earning of Demerged Undertaking 1 and Demerged Undertaking 2. In the circumstances, we have considered it appropriate not to apply this method in the present exercise.

Market Price Method

The market price of an equity share as quoted on a stock exchange is normally considered as the value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper index of the fair value of the share especially where the market values are fluctuating in a volatile capital market. Further, in the case of a merger, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard. This method would also cover any other transactions in the shares of the company including primary / preferential issues / open offer in the shares of the company as envisaged in the overall scheme of arrangement and reported to the stock exchanges / available in the public domain.

In the present case, the shares of HSIL are listed on NSE and BSE and well traded on these stock exchanges, however, the valuation of the Demerged undertaking 1, Demerged Undertaking 2 and Remaining Undertaking cannot be calculated using the same market price and doing the split of the same on certain parameters as the different business segments have their different risk and rewards. We have computed the market value of HSIL and for the reasons mentioned above, we have considered it appropriate only to keep the value under this method in the background for our analysis.

Discounted Cash Flows (DCF) Method

The DCF method uses the future free cash flows of the firm discounted by the cost of capital to arrive at the present value. In general, the DCF method is a strong and widely accepted valuation tool, as it concentrates on cash generation potential of a business. Considering that this method is based on future potential and is widely accepted, we have used this approach in the valuation in the present exercise.

Using the DCF analysis involves determining the following: Estimating future free cash flows:

- Free cash flows are the cash flows expected to be generated by the company that are available to all providers of the company's capital — both debt and equity.
- Appropriate discount rate to be applied to cash flows i.e. the cost of capital:

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and creditors), weighted by their relative contribution to the total capital of the company. The opportunity cost to the capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk.

To arrive at the total value available to the equity shareholders of HSIL, the values arrived above under DCF method are adjusted for, inter-alia, the value of loans, cash, surplus / non-operating assets/liabilities(if any) as deemed appropriate for the purpose of our valuation analysis.

VII. BASIS OF PROPOSED SHARE ENTITLEMENT RATIO

The fair basis for the Proposed Demerger would have to be determined after taking into consideration all the factors and methodologies mentioned hereinabove. Though different values have been arrived at

under each of the above methodologies, for the purposes of recommending a Share Entitlement Ratio, it is necessary to arrive at a single value for the shares of the concerned undertakings. It is however important to note that in doing so, we are not attempting to arrive at the absolute equity values of the shares of the Undertakings but at their relative values to facilitate the determination of the share entitlement ratio. For this purpose, it is necessary to give appropriate weights to the values arrived at under each methodology.

We have carried out a relative valuation of the equity values of the Undertakings and have given weights to the values arrived at under different methodologies, based on their evaluation and judgement of the businesses of the Undertakings, in order to arrive at the relative values of the Undertakings in order to arrive at the Fair Share Entitlement Ratio for the Proposed Demerger.

In the ultimate analysis, valuation will have to be arrived at by the exercise of judicious discretion by the valuers and judgments taking into account all the relevant factors. There will always be several factors, e.g. quality of the management, present and prospective competition, yield on comparable securities and market sentiment, etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of a business. This concept is also recognised in judicial decisions.

The Fair Share Entitlement Ratio has been arrived at on the basis of a relative valuation of Undertakings based on the various methodologies explained herein earlier and various qualitative factors relevant to each Undertaking and the business dynamics and growth potentials of the businesses of the Undertakings, having regard to information base, key underlying assumptions and limitations.

We have considered the following additional factors while arriving at the Share Entitlement Ratio for the proposed demerger of CPDM Undertaking & Retail Undertaking and BPDM Undertaking of HSIL into Resulting Company 1 and Resulting Company 2 respectively:

- A. Capital employed in the business;
- B. Equity servicing capacity, and
- C. Shareholders' profile and other relevant factors.

We are given to understand by the Management that the demerger of Demerged Undertaking 1 and Demerged Undertaking 2 will be as per requirement of the Section 2(19AA) of the Income tax Act, 1961. Accordingly, HSIL will transfer the assets and liabilities of Demerged undertaking 1 and Demerged Undertaking 2 to Resulting Company 1 and Resulting Company 2, respectively, at Book Value (as defined in the Scheme). Further, we understand that the shareholders of HSIL would be entitled to shares of Resulting Company 1 in the same proportion which they currently own shares directly in HSIL.

VIII. RECOMMENDED RATIO

It may be noted that any proposed share entitlement ratio for the Demerger can be considered as fair and reasonable, only if the proposed share entitlement ratio to be adopted does not result in any adverse consequence to the shareholders of HSIL.

Considering that ultimate shareholding of Demerged Undertaking 1 and Demerged Undertaking 2 would not change on account of the Scheme, the proposed Demerger of Demerged Undertaking 1 into Resulting Company 1 and demerger of Demerged Undertaking 2 into Resulting Company 2 would be value-neutral to ultimate shareholders of HSIL. Once the Scheme is implemented, all the equity shareholders of HSIL would be allotted equity shares of Resulting Company 1 besides their existing equity holding in HSIL. No shareholder is, under the Scheme, required to dispose-off any part of its shareholding either to any of the other shareholders or in the market or otherwise. The proposed demerger does not envisage the dilution of the effective holding of any one or more shareholders as a result of the operation of the Scheme.

The Computation of Share Entitlement ratio has been given as under:

	HSIL Remaining Undertaking (A)		Demerged Undertaking 1 (B)		Demerged Undertaking 2 (C)	
	Weight	Value (Rs. Lacs)	Weight	Value (Rs. Lacs)	Weight	Value (Rs. Lacs)
Equity Values						
Discounted Cash Flow Method	100%	1,76,258	100%	54,182	100%	1,73,857
Net Assets Value Method	0%	1,23,671	0%	8,998	0%	20,809
Weighted average Equity Value		1,76,258		54,182		1,73,857
Less holding company discount					30%	52,157
Comparative Value (A Vs B+C)		1,76,258		54,182		1,21,700
Comparative Ratio		1,76,258		1,75,882		
Share Entitlement ratio		1.002		1		
Share Entitlement ratio (Rounded off)		1.0		1		

In the light of the above, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, in our opinion, the Fair Share Entitlement Ratio for the Scheme is as follows:

"Fair Share Entitlement Ratio for the Proposed Demerger – 1 (one) Equity Share of Rs. 2 each of Resulting Company 1 to be issued against 1 (one) Equity Share of face value of Rs. 2 each of HSIL"

On the coming into effect of the scheme,

(a) the shareholding of Somany Home Innovation Limited will be a mirror image of the shareholding of HSIL Limited, as on the record date. In the instant case, the shareholding of the shareholders of the parent listed company (being HSIL Limited) shall not be affected and additionally, same number of equity shares shall be allotted to them in Somany Home Innovation Limited. So there will be no change in the shareholding pattern; and

(b) there will be no change in the shareholding of Brilloca Limited, which will continue to remain a wholly owned subsidiary of Somany Home Innovation Limited.

Accordingly, considering that the ultimate shareholding of the shareholders in HSIL shall be replicated in the Somany Home Innovation Limited, the Scheme would be value neutral to the ultimate shareholders of HSIL Limited.

2. Basis of our opinion

2.1. Rationale of the Proposed Scheme (as per extract of draft Proposed Scheme of arrangement)

2.1.1. The aforesaid businesses (as mentioned in clause 1.1 above) have been nurtured over a period of time and are currently at different stages of growth. The Demerged Undertakings (as more fully set forth in the Proposed Scheme) and the Remaining Undertaking (as more fully set forth in the Proposed Scheme) have distinct capital requirements, nature of risk, competition, human skill-set requirements, etc. The segregation of businesses as envisaged in the Proposed Scheme will enable sharper focus and better alignment of the businesses to its customers. It shall also enable the respective businesses to improve competitiveness, operational efficiencies and strengthen its position in the relevant marketplace.

2.1.2. The Proposed Scheme shall enable each of the respective Demerged Undertakings and the Remaining Undertaking to attract interest of such investors and strategic partners having the necessary ability, experience and interests and shall provide an opportunity to the investors to select investments which best suit their investment strategies and risk profiles.

2.1.3. The implementation of this Proposed Scheme will result in:

- a. creation of separate and distinct entities housing the Demerged Undertakings and the Remaining Undertaking;
- b. optimal monetisation and development of each of the respective businesses, including by attracting focussed investors and strategic partners having the necessary ability, experience and interests in the relevant sectors;

- c. dedicated and specialised management focus on the specific needs of the respective businesses; and
- d. benefit to all stakeholders, leading to growth and value creation in long run and maximising the value and return to the shareholders, unlocking intrinsic value of the assets, achieving cost efficiencies and operational efficiencies.

2.1.4. The Scheme is in the interest of all the Companies involved in the Proposed Scheme, including their respective stakeholders and creditors.

2.2. Sources of Information

- i) Draft Proposed Scheme.
- ii) Valuation report dated November 8, 2017, issued by Santosh K Singh & Co., Chartered Accountants.
- iii) Audited Balance Sheet and Statement of Profit & Loss along with the relevant notes of Demerged Company for the financial year ended March 31, 2017.

2.3. Valuer's Analysis

The Clause VIII of Share entitlement ratio report provides the ratio for the allotment of shares by resulting Company 1, for the demerger of, (a) Demerged Undertaking 1 into Resulting Company 1, and (b) Demerged Undertaking 1 into Resulting Company 2, which is as follows:-

"for every 1 (one) equity share of face value of INR 2/- (Rupees two only) each held in HSIL Limited as on the Appointed Date, the equity shareholders of HSIL Limited shall be issued 1 (one) equity share of face value Rs. 2/- (Rupees two only) each in Resulting Company 1, credited as fully paid-up."

3. Conclusion and Our Opinion

- 3.1. With reference to above and based on information provided by Management and after discussions with the Valuers, we understand that the Proposed Scheme has been structured to enable Demerged Undertakings to capitalize on growth opportunities and unlock the potential value of businesses of distinct nature of the Demerged Company. Pursuant to the Proposed Scheme, the shareholders of HSIL shall be issued shares by the Resulting Company 1, which shall also be listed on the same Stock Exchanges on which the shares of the Demerged Company are listed.
- 3.2. We further understand that the shares issued by the Resulting Company 1 shall be for demerger of Demerged Undertaking 1 and Demerged Undertaking 2. Considering that the Resulting Company 2, a company carrying on the business of BPDM Undertaking, continues as a wholly owned company of Resulting Company 1, it shall be held indirectly by the shareholders of HSIL Limited.
- 3.3. We also understand that, the proposed cancellation and reduction of share capital of the Resulting Company 1, to the extent held by the Demerged Company, will result in creation of mirror image proportionate shareholding of the Resulting Company 1, as that of the Demerged Company (i.e. economic interest of both companies shall remain intact in the hands of the shareholders of the

Demerged Company and in the same ratio). Thus, the interest of shareholders remains unaffected post the coming into effect of the Proposed Scheme.

"Considering above and subject to our caveats as provided in Annexure 1, we as a Merchant Banker hereby certify that we have reviewed the share entitlement ratio report for the Proposed Scheme of arrangement for demerger of CPDM Undertaking and Retail Undertaking of HSIL Limited to Resulting Company 1 and demerger of BPDM Undertaking of HSIL Limited to Resulting Company 2 and are of the opinion that share entitlement ratio of

- a. 1 (one) equity shares of face value INR 2 (Rupees Two) each at par in Resulting Company 1 for every 1 (one) equity shares of face value of INR 2 (Rupees Two) held in the Demerged Company,*
- b. in consideration of transfer and vesting of CPDM and Retail Undertaking in Resulting Company 1 and BPDM undertaking in Resulting Company 2,*

as fair and reasonable to the equity shareholders of HSIL Limited."

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of HSIL Limited ("the Company") as of 31st March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company

are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

"Annexure A" to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2018, we have audited the internal financial controls over financial reporting of HSIL Limited ('the Holding Company') and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary companies which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ('the Act').

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of

internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding company and its subsidiary companies which are incorporated in India have maintained, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

- i) Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one subsidiary, which is a company incorporated in India, is based on the corresponding reports of the auditor of such company.

Annexure – B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Brilloca Limited** ("the Company") as of 31st March 2018 in conjunction with our audit of the standalone financial statements of the Company for the period ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance

with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
